

Regio Infotainment System

Model Name: VW REGIO FLOAT

Type of Equipment: Display Audio
Infotainment Unit

Brand Name: Visteon

Manufacturer: Visteon Corporation

Manufacturer Address:

One Village Center Drive,
Van Buren Township, MI 48111.USA

Electrical specs: 12V, 12A

Made In Brazil

USER MANUAL

Version 2.0

Infotainment System - REGIO

1. Safety Requirements

- This product works with a supply voltage of 12V.
- Always check the function of each connector color through the wiring diagram.
- Do not disassemble or modify the equipment, because this can cause an accident such as fire or electric shock, invalidating your warranty.
- Do not block the heat exits of the appliance. This may cause overheating or fire.
- To prevent the risk of electric shock, never expose the unit, amplifier and speakers to cleaning products, moisture or water. In addition, contact with
- Liquids may cause damage, overheating of the unit and risk of fire.
- While driving, keep the volume at a level where external sounds can be heard.
- Make sure all speaker wiring is properly installed.
Otherwise the unit may be damaged.
- Respect the local rules, laws and regulations of traffic.
- While driving
 - Do not watch or operate the unit as this may lead to distraction and cause an accident. Park your car in a safe place to watch or operate the unit.
 - Do not use the configuration feature or no other function that can divert your attention of the road.

- During operation
 - Do not insert your hands, fingers or objects strangers to the unit as this may cause injury or damage to the unit.
 - Keep small objects out of reach of the children.
- To avoid the risk of accidents and the violation of rules, the video feature should never be used while the vehicle is being conducted.

2. Warnings

- To reduce the risk of fire or electric shock, do not expose the device rain or moisture.
To avoid electric shock, do not open the appliance. Search for an Authorized Service.
- Avoid prolonged use at high volume (power greater than 85 decibels), because this may impair your audition.
- Taking your eyes off the road for too long or too often while using any infotainment feature can cause a crash. You or others could be injured or killed. Do not give extended attention to infotainment tasks while driving. Limit your glances at the vehicle displays and focus your attention on driving. Use voice commands whenever possible.
- Use the proper power supply.
This product is designed for operation with a negative grounded 12 V DC battery system. Never operate this product with other battery systems, especially not with a 24 V DC battery system.
- Do not disassemble or modify the unit, or attempt to repair the product yourself. This may cause serious injury or damage and your warranty will be null and void. If the product needs

Infotainment System - REGIO

repair, consult your dealer or contact technical support.

- If the unit is out of order (no power, no sound) or in an abnormal state (has foreign objects in it, is exposed to water, is smoking, or smells), turn it off immediately and consult your dealer.

Overview

Infotainment System

REGIO is an Display Audio Infotainment with a 10-inch display that combines state-of-the-art technology, modern design, impeccable finishing and multiple features.

The product is all designed to run Android Automotive operating system, bringing more connectivity and interactivity to the user.

This infotainment hasn't physical buttons, all contact being made through a capacitive screen that allows extremely precise touches.

The infotainment system is controlled by using the infotainment display with buttons on left and right bars, steering wheel controls.

Display Left Bar:

1.  (Power)
 - Touch and hold to turn off system.
 - Touch and hold to turn on system.
 - Touch to mute/unmute the system when on.
2.  (Phone)
 - Touch to access the phone display or answer an incoming call.
3.  (Volume)
 - Touch to access the volume display.

4. (Media)

- Touch the Audio icon to display the active audio source page. Available sources are AM, FM, USB1, USB2 and Bluetooth.

5. (Back)

- Touch to return to the previous screen in a menu.

6. (App Store)

- Touch the APPS icon to display the apps in the radio.
- Downloading and using apps requires Internet connectivity.

7. (Home Screen)

- Touch to return to home screen.

Display Right Bar:

8. (Settings)

- Touch to go to settings screen.

3. Radio

AM-FM Radio

From the Home Screen, touch the Media icon to display the audio sources screen. Choose radio icon

AM-FM controls

a. Seeking a Station

Press  or  to search for the previous or next strongest station.

Infotainment System - REGIO

b. Tuning a Station

Touch the keyboard icon  on the infotainment display to switch to Direct Tune. Touch  or  to manually search for a station.

c. Frequency Range

Touch frequency band icon

on the infotainment display to switch to slide over the frequency range.

d. Storing Radio Station Presets

Favorites are stored near the bottom of the display. Up to 6 preset stations can be stored.

4. USB

From the Home Screen, touch the Media icon to display the audio sources screen. Choose USB icon

USB controls

a. USB Port

This infotainment system is equipped with two USB ports.

These ports are for data and charging.

b. Playing from a USB

To play a USB device, perform the following steps:

→ Connect the USB device.

→ Touch USB1 or USB2 on the media screen

Use the following buttons when playing an active USB source:

 : Touch to play the current media source.

 : Touch to pause play of the current media source

 : Press to seek to the previous track.

 : Press to seek to the next track.

 : Touch the shuffle icon on the infotainment display to shuffle through the available media. Touch to play the tracks randomly. Touch again to stop shuffle.

 Touch the repeat icon on the infotainment display to repeat through the available media. Touch once to repeat all tracks. Touch the icon twice to repeat the same track.

c. Time bar

Move the time bar to interact with the currently playing track.

d. USB Browse Menu

The following options appear on the right of the screen:

- Folders
- Artists
- Albums
- Songs
- Genre
- Video Files

5. Bluetooth Audio

The Bluetooth-capable system can interact with many mobile devices, allowing:

→ Placement and receipt of calls in a hands-free mode.

Infotainment System - REGIO

→ Sharing of the device's address book or contact list with the vehicle.

a. Bluetooth (Pairing and Using the Phone)

A Bluetooth-enabled mobile device must be paired to the Bluetooth system and then connected so that Bluetooth functions can be used in the infotainment system.

b. Pairing Information

→ If no mobile device has been connected, the Phone screen on the infotainment display will show the Connect Phone option. Touch this option to connect. Another way to connect is to touch the Settings icon and then the Media tab.

→ Up to 5 devices can be paired to the Bluetooth system.

→ Pairing only needs to be completed once, unless the pairing information on the cell phone changes or the cell phone is deleted from the system.

→ If multiple paired mobile phones are within range of the system, the system will connect to the last connected mobile phone.

c. Pairing a Phone

→ Make sure Bluetooth has been enabled on the cell phone before the pairing process is started.

→ Touch the Phone icon on the

Home screen or the media tab on the Settings menu.

→ Touch Add Device

→ Select the Regio's name shown on the infotainment display from your cell phone's Bluetooth Settings list.

→ Follow the instructions on the cell phone to confirm the six-digit code showing on the infotainment display and touch Pair. The code on the cell phone and infotainment display will need to be acknowledged for a successful pair.

→ Start the pairing process on the cell phone to be paired to the vehicle. Once the cell phone is paired, it will show under Connected.

→ If the vehicle name does not appear on your cell phone, there are a few ways to start the pairing process over:

- Turn the cell phone off and then back on.
- Go back to the beginning of the Phone menus on the infotainment display and restart the pairing process.
- Reset the cell phone, but this step should be done as a last effort

→ Repeat above steps to pair additional cell phones.

d. Paired Phones

→ Touch Settings, then touch Media.

Infotainment System - REGIO

→ Touch Phones to access all paired and all connected cell phones and mobile devices.

→ Cell phones and mobile devices can be added, removed, connected, and disconnected.

e. Phone

→ Making a Call Using Contacts and Recent Calls.

→ Calls can be made through the Bluetooth system using personal cell phone contact information for all cell phones that support the Phone Book feature.

→ The Contacts menu accesses the phone book stored in the cell phone.

→ The Recents menu accesses the recents call list from your cell phone.

à To make a call using the Contacts menu:
 - Touch the Phone icon on the Home screen.
 - Touch Contacts.

f. Making a Call Using the Keypad

To make a call by dialing the numbers:
 - Touch the Phone icon on the Home Screen.
 - Touch Keypad and enter a phone number.
 - Touch  on the infotainment display to start dialing the number.

g. Accepting or Declining a Call

When an incoming call is received, the infotainment system mutes and a ring tone is heard in the speakers.

→ Accepting a Call

Touch  on the infotainment display.

→ Declining a Call

Touch  on the infotainment display.

h. Bluetooth Media

To play media via Bluetooth, the phone needs to be paired and connected, after that touch the media icon on the home screen and select Bluetooth media.

6. Wi-Fi

This feature will show connected and available Wi-Fi networks. The infotainment system can be connected to an external protected Wi-Fi network, such as a mobile device or home hotspot, to utilize connected services.

a. Connect to a Wi-Fi Hotspot

To connect to a Wi-Fi network, touch in the Settings icon and then System tab.

b. Find hotspot

Touch the find hotspot tab to connect the infotainment system to an external protected Wi-Fi network.

c. Manage Saved Networks

The infotainment system allows already connected Wi-Fi networks to be saved or deleted.

7. Android Auto / CarPlay

Android Auto and/or Apple CarPlay capability may be available through a compatible smartphone. If available, PROJECTION will appear on the Home Page of the infotainment display.

→ To use Android Auto and/or Apple CarPlay:

- Download the Android Auto app to your phone from the Google Play store. No app is required for Apple CarPlay.

- Connect an Android phone or iPhone by using the compatible phone USB cable and plugging into a USB data port. For best performance, use the device's factory-provided USB cable. Aftermarket or third-party cables may not work.

- When the phone is first connected to activate Apple CarPlay or Android Auto, a message will appear requesting access to the system.

Touch Continue to launch Apple CarPlay or Android Auto.

- PROJECTION on the Home screen will change to Android Auto or Apple CarPlay depending on the phone. Android Auto and/or Apple CarPlay may automatically launch upon USB connection. If not, touch the ANDROID AUTO and/or APPLE CARPLAY icon on the Home Screen to launch.

8. Settings

To access the options below, touch the settings icon and select the tabs

The Settings Menu allows adjustment of different vehicle and radio features. The menu may contain the following:

a. Time and Date

Touch the infotainment controls to increase or decrease hours,

minutes, and AM or PM. Touch 12Hr or 24Hr for 12 or 24 hour clock.

Touch infotainment controls to increase or decrease month, day, or year.

b. Language

This will set the display language. Touch Language and select the appropriate language.

c. Bluetooth

From the Bluetooth option, the following may be displayed:

→ Pair New Device: Touch to add a new device.

→ Device Management: Touch to connect to a different phone source, disconnect a phone, or delete a phone.

d. Display

From the Display icon, the following may be displayed:

→ Brightness: Touch Darkest, Darker, Moderate, Brighter or Brightest to adjust the display.

→ Enable / disable touch screen tone

e. Audio

From the Audio option, the following may be displayed:

→ Sound Mixer

Touch to calibrate system audio

→ Balance and Fader

Touch to adjust system fader and balance.

f. Wi-Fi

From the Wi-Fi option, the following may be displayed:

Infotainment System - REGIO

→ Connect to a Wi-Fi Hotspot:
Touch to connect the system to an external Wi-Fi network

→ Wi-Fi Network Management:
Touch to connect to a different network, disconnect, or delete Wi-Fi networks.

- g. System Information**
Touch to verify system manufacturing information. Software version, hardware version, serial number and etc.
- h. Factory Reset**
Touch to reset system factory defaults

Hrvatska [Croatian]	Ovime Visteon Corporation izjavljuje da je ovaj VW REGIO FLOAT u skladu s osnovnim zahtjevima i ostalim relevantnim odredbama Direktive 2014/53 / EU.

The following information shall also be included in the case of radio equipment intentionally emitting radio waves:

- a. Frequency band : Bluetooth ; **2.402 GHz – 2.480 GHz**
Wi-Fi 2.4 G; **2.412 GHz – 2.472 GHz**
Wi-Fi 5.0 G; **5.180 GHz – 5.825 GHz**
- b. Maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates.
Max output power Bluetooth; **16 dBm +/- 1.5 dB**
Max output power Wi-Fi 2.4 G; **802.11b, g 14 dBm±1,5dB**
802.11n20 8 dBm±1,5dB
802.11n40 6 dBm±1,5dB
Max output power Wi-Fi 5.0 G; **18.5 dBm±1,5dB**

USA/Canada: FCC ID: NT8-VWREGIOFLOAT
IC: 3043A-VWREGIOFLOAT
HVIN:H04.1

FCC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) The device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

EMC

Class B

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Infotainment System - REGIO

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio technician for help.

RF exposure safety

This device complies with the FCC RF exposure limits and has been evaluated in compliance with mobile exposure conditions.

The equipment must be installed and operated and was evaluated with minimum distance of 20 cm of the human body. This distance or greater is maintained by vehicle design and ensures compliance by normal use of the vehicle.

ISED CANADA

This device complies with Industry Canada License-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) The device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et,
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF exposure safety

This device complies with the ISED RF exposure limits and has been evaluated in compliance with mobile exposure conditions.

The equipment must be installed and operated and was evaluated with minimum distance of 20 cm of the human body. This distance or greater is maintained by vehicle design and ensures compliance by normal use of the vehicle.

CAN ICES-003

Les changements ou modifications non expressément approuvés par la partie responsable de la conformité peuvent annuler le droit de l'utilisateur à utiliser l'équipement.

Infotainment System - REGIO

Sécurité d'exposition aux RF

Cet appareil est conforme aux limites d'exposition RF d'ISED et a été évalué conformément aux conditions d'exposition mobile.

L'équipement doit être installé et utilisé à une distance minimale de 20 cm du corps humain. Cette distance ou plus est maintenue par la conception du véhicule et assure la conformité par l'utilisation normale du véhicule.

CAN NMB-003

Cet appareil numérique de classe B est conforme à la norme canadienne NMB-003.
