

3/31/2022

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

PCTEL hereby requests a Permissive Change Class II of the radio equipment certification for certification number, FCC ID: NYPWIFIAP1200. This product differs from the originally approved product in the following manner:

- (a) Associated digital circuitry. – None
- (b) Functional capabilities. – Software revision to extend frequency bands for UNII-2c / UNII 3 straddle channels.
- (c) Antenna Characteristics. – None
- (d) Cosmetic differences – None

I attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

 (on behalf of applicant)

Michelle Branum, CKC Certification Services for
Stephen Saliga, PCTEL VP, Engineering and Product Management
