G-CUBE<sup>3</sup>

be yourself... inspire others

Inspired since 2008...

G-CUBE started when a young lady noticed the computer accessories we use every day are dull and masculine. She realized "CHANGE" is needed. G-CUBE, world's first brand has revolutionized the market by offering a refreshing line of computer peripherals that are sleek, modern, colorful & stylish. G-CUBE blends fashion with technology.

Inspired by our users since 2010...

G-CUBE added a new line "G-CUBE Audio" to the family and won its recognition in North America. With more praise and support from G-CUBE's Audio users, G-CUBE strived to create and offer our users more choices of Audio and bring it to the next level!

Today, G-CUBE's design philosophy remains the same but greatly expanded its product category into G-CUBE Audio (mobility) & When G-CUBE meets Apple (Mac world). G-CUBE's quality conscious about every note in music. G-CUBE wants you to hear the sound that you can't hear with other headsets at affordable price.

G-CUBE wants you to *Be Yourself...Inspire Others!*

If you have an inspiration that you'd like to share, contact us at [info@gggcube.com](mailto:info@gggcube.com) !

What's in the package?

Bluetooth Speaker

Micro USB Cable

Instruction Manual

Specifications

Bluetooth Version: v3.0

Bluetooth Profile: A2DP AVRCP

Operation Range: Up to 10m / 33ft

Power: 3W

Signal to Noise Ratio: > 80 dB

Frequency Response: 100 Hz - 20 KHz

Distortion: < 10%

Battery: Li-Polymer, 3.7 V, 400 mAh

Battery Charging Voltage: 5 V

3

4. Bluetooth Pairing

1) Press and hold the multi-function button ④ on your speaker for 8 seconds until LED flashes in "red+blue";

2) Turn on your player's Bluetooth option and search for speaker's Bluetooth. Select the Bluetooth code "G-CUBE BST-100 or G-CUBE BST-200 " on player's screen;

\*\* Some players identify speaker's Bluetooth in the condition of entering a code "0000" to be paired with your player;

3) When connected, LED flashes in red and sounds with 3 "beeps";

4) Simply press "play" in your player, speaker automatically plays. Blue LED flashes every 3 seconds to show working status

5) Adjust the volume in your player as required to play your music

6) To discontinue with pairing, you could simply turn off the speaker power or turn off your device's Bluetooth option

4

Troubleshooting

1. If you can't find connection between the device & G-CUBE Bluetooth Speaker, please restart your device's Bluetooth option again.

2. While connecting the speaker with your device, please do not have another user trying to make connection within 10 meters as it may interfere with your connection.

3. If you hear " sound" skip from the speaker, it is normal sometimes due to interferences from other wireless devices such as other type of wireless remotes. However, it is abnormal if the sound skips all the time
