Re: FCC ID OMA5000Base, Request for Class II Permissive Change

To whom it may concern,

The purpose of this letter is to request a Class II permissive change to our current FCC Approval for a charging base that is be used with personal tracking device product. The changes that have been made do not affect the testing that was done to approve this radio. The various models are shown below.

iSECUREtrac 5000 Series Charging Base Devices

iSECUREtrac S5000 Charging Product

iSECUREtrac S5000 MIB Charging/Landline Modem Product

Regards,

X
