Declaration

Subject: Project number: R1207114, FCC ID: OFJCW-1-12061202 declaration of IR port.

Dear Sir or Madam:

We, IDX Company, Ltd., hereby declare that our product Wireless Video Transmission System, Model Number CW-1.

1. The product for sales only supports 1 to 1 and does not support 1 to multiple nor multiple to 1.
2. The IR socket is for factory use only. IR port is used for paring of TX and RX and region code setting during the production at factory. This setting process has not been disclosed to the dealers and consumer. Besides of this fact, IR controller is not available for dealers and consumer. With this reasons we believe that this will not conflict with FCC policy stated in KDB 594280.
3. Contractual agreement between IDX and dealer/distributor and consumer is instruction manual which including in the each product. It is clearly mentioning that "the product allowed to be used only in designated region by IDX".
To control the product designation to US for US version only, each unit has serial number on the carton boxes and on each units. This serial number system is easily identifiable by IDX, dealer, distributor and consumer.
Serial number is 9 digits and last alphabet describes destination of the unit.
"U is for USA, J is for Japan and E is for Europe."
*See attached serial number control and drawing of the boxes.

4. The software version for EUT test has bug there, it does not active in DFS detection.
The software was upgraded with new version and the issued was solved as you knew.
Product for sales will use new software version.

Please contact me if you have any question.
