

MODIFICATION LIST

THE FOLLOWING ACCESSORIES WERE ADDED TO THE EUT DURING TESTING :

- FCC ID : OH5EX7P
1. The AC power plug added two core at L & N
(Please refer to photo file modification1.jpg)
 2. The AC power plug added a core at GND wire turn three cycles
(Please refer to photo file modification1.jpg)
 3. The D802 and D804 added a 100pf cap connected to GND
(Please refer to photo file modification2.jpg)
 4. Change the C803, connected to other GND
(Please refer to photo file modification1.jpg)
 5. Added a core at VGA cable near the VGA connected and added a core at VGA cable near the monitor (Please refer to photo file EutInsideView.jpg)
 6. Added a core at RW201 bus cable
(Please refer to photo file MainBoardCompView.jpg)
 7. Added a core at FBT HV out
(Please refer to photo file MainBoardCompView.jpg)
 8. The 96VIN of the VRT board added a choke
(Please refer to photo file CrtBoardCompView.jpg)
 9. The C802 of the main board replaced by 0.22MF cap
(Please refer to photo file CrtBoardCompView.jpg)
 10. The VCC pin of the RL201 added a 182J cap connected to GND
(Please refer to photo file modification3.jpg)
 11. The R807 of the main board replaced by 75K 1/2W resistor
(Please refer to photo file MainBoardSolView.jpg)
 12. IC 201, 30 pin foot jump wire
(Please refer to photo file MainBoardSolView.jpg)
 13. Added a meal cover at CRT board
(Please refer to photo file EutInsideView.jpg)
 14. The CRT board GND added five jump wire connected to main board GND
(Please refer to photo file EutInsideView.jpg)
