

Tim,

Comment 7: EUT was tested in 3 axis. Only the worse case is reported.

Comment 8: EUT was raised for 3 cm and tested. We found the data is very close to the original one.

As to the other comments, we've made the necessary modification. Please see attached files for this project.

Should there be any mistake or problem, please feel free to let us know.

Thank you for your consideration upon this case!

Regards,

Elisa
