

To: Federal Communications Commission

From: Shaike Raz

Att: Reviewing Engineer

Reference No: L93850.00

Date: 27 October 2009

Subject: Testing of WLAN Module With WCE (WiFi Coverage Extender) For DAS,
FCC ID: OJFMA860WME-AU, M/N 860M-AU With WCE-AU, Tested
With 4 Meru AP-208 Access Points

To Whom it May Concern,

1. This application concerns the same devices authorized under FCC ID: OJFMA860MWCE-AU except that the four Cisco 1242 access points were replaced with four Meru AP-208 access points.
2. Separate test reports for DTS and NII bands for each access point were issued.
3. Mobile Access Networks requests that the notes on the grants appear as on the original grants except for replacing "typical Cellular 800 and PCS 1900" to "typical WMTS...AWS..."
4. Please contact me if you need any additional information.

Please contact me if you need any additional information.
