McLean, VA 22101

Subject: FCC ID: OWDTR-0051-E
IC: 3636B-0051.

M/A-COM seeks application approval for a Class 2 Permissive Change on the M7300 700/800 MHz mobile radio.

Exhibits include MPE test report, antenna data sheet, Operator's manual, and Installation manual.

The motorcycle application is a variation of a typical automobile mobile radio installation. Further, the motorcycle application is limited to operation within the 800 MHz Public Safety band only, no 700 MHz operation. Operation limitation is invoked by product configuration at the time of customer order in the M/A-COM factory.

Confidentiality letter and Rhein Tech Laboratories, Inc. agent authorization letter to act on M/A-COM's behalf have been provided for this Class 2 Permissive Change request.

Thank you for your kind consideration and timely review for this new product entry to the M/A-COM mobile radio product family.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch".
