Subject: FCC ID: OWDTR-0059-E

Harris seeks application approval for a Class 2 Permissive Change on the XG-75 VHF portable radio with regard to the addition of Part 22 auction frequencies in the VHF band.

Test report is provided as a filing exhibit, substantiating operational performance requirements. No hardware changes, nor PC board changes have been made to the product. Wider frequency coverage has been enabled through software configuration at the factory. No new accessories are being introduced, nor antennas. Conducted power remains the same as the original Grant.

Thank you for your kind consideration and timely review of this product extension.

Sincerely,

A handwritten signature in black ink, appearing to read "Shane T. Miller". The signature is stylized with a large, looped "S" and a long, horizontal stroke at the end.

Shane T. Miller  
Regulatory Manager
