**Attestation**

**XL-85M UHF-L – OWDTR-0177-E**

**Software Bill of Materials**

1. Software Bill of Materials (list of all sw that L3Harris loads into the radio)
  - XLP R21X005
2. L3Harris attests that the XL-85M UHF-L device is compliant to the requirement that no software is produced by entities on the Covered List as follows:
  - L3Harris device uses no software that is produced by the entities on the Covered List.
  - L3Harris' device is not capable of storing or running covered list software and the device is not capable of connecting to the internet or another device that may have the software.
  - Explanation supporting this attestation:
    - L3Harris develops the XLP R21X005 software that is used in the XL-85M UHF-L device.
    - L3Harris has designed the XL-85M UHF-L using a proprietary hardware design which only operates using L3Harris' proprietary software. The XL-85M UHF-L has no method or provision to alter, download and store/run device level software.

Sincerely,

Thomas D Camper, Jr.  
Regulatory Manager
