Re: FCC ID: P2SBELTCLIPT

To Whom It May Concern:

The following application is submitted on behalf of our client, Neptune Technology Group, Inc., for evaluation of their model BCT for certification under FCC Part 15.247.

The Belt Clip Transceiver (BCT) is a body-worn, battery powered, 910-920MHz transceiver that is used in walk-by mode to read RF-communicating water meters manufactured by Neptune Technology Group. It stores readings on an SD card, and, upon command via Bluetooth from the handheld computer, transmits the readings to another computing device via Bluetooth. The Bluetooth radio is capable of transmitting simultaneously with the collocated 900 MHz transmitter therefore radiated intermodulation products were evaluated.

The BCT was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, prominent 'R'.
