USER MANUAL

- 1) Connect the xTag Display to an Ethernet cable.

- 2) Connect the xTag Display to a power supply.
 - a. *The xTag Display should switch on by itself.*

 - b. *Make sure you see the little M on the xTag Display screen, meaning that the Internet connexion is available. The device is now connected to Mirador Express.*

- 3) Press and hold the two buttons on the xTag2 until it switches on.

You are now ready to use the xTag2 and the xTag Display!

FCC

This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Canada:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

GUIDE UTILISATEUR

- 4) Connectez le xTag Display à un câble Ethernet.
- 5) Connectez le xTag Display à une source d'alimentation électrique.
 - a. *Le xTag Display devrait alors s'allumer par lui-même.*
 - b. *Vérifiez qu'un petit M apparaît sur l'écran du xTag Display, ce qui signifie que l'appareil est maintenant connecté à Internet et, par le fait même, à Mirador Express™.*
- 6) Pressez et tenez les deux boutons présents sur le xTag2 jusqu'à ce qu'il s'allume.

Vous êtes maintenant en mesure d'utiliser le xTag2 et le xTag Display!
