Ref: FCC Class II Permissive change for FCC ID: PD9AX211NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX211NG, originally granted for DSS, DTS, UNII on 02/17/2021 , for 6XD on 04/26/2021 and for UNII-4 on 08/29/2022.

Change #1: This change establishes portable category SAR conditions for the Dell model P181G PC with Wistron Corp 0JWY5K and 07M1NC antennas.

Note: The Platform is already approved on 03/07/2023 (ID#87) for DSS, DTS, UNII and 6XD.

The only change is the WLAN TAS feature activation operating for DSS, DTS, UNII. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Sincerely,

By:

Benjamin LAVENANT
