Ref: FCC Class II Permissive change for FCC ID: PD9AX211NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX211NG, originally granted for DSS, DTS, UNII on 02/17/2021, for 6XD on 04/26/2021, for UNII-4 on 08/29/2022.

Change #1: This change establishes portable category SAR conditions for the Dell model P197G Notebook PC with antennas part number F-0G-FS-6194-001-00, F-0G-FS-6194-001-00.

-The WLAN TAS feature is enabled on 2.4GHz and 5GHz band. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

-The IPD measurement is conducted on a single channel instead of the five channels permitted by the FCC upon inquiry shared on this filing.

Sincerely,

By: _____
