This is a letter in response to your e-mail dated 02.08/01 (Technical request). Yes, there is a transmission every 10 seconds. Therefore, you are correct, it should fall under the provisions of section 15.231(e). The new data is uploaded with this letter.

The manufacturer verified and declared that this device operated under the provisions of section (e) is provided with a means for automatically limiting operation so that the duration of each transmission shall not be greater than one transmission but in no case less than 10 seconds.

Please do not hesitate to contact me again if you have additional questions and/or comments.

Sincerely,
