## **Request of Class II Permissive Change**

**Höft & Wessel AG**  
**FCC ID: PGM860221**  
**FCC Part 15 Certification**

Gentlemen,

This is to request a Class II Permissive Change for FCC ID: PGM860221, originally granted on 06/17/2008.

The major change filed under application is:

### **Change 1:**

An additional external swivel antenna (half wave dipole) is used.

### **Change 2:**

The firmware is modified to support a slight TDMA slot format modification to allow for higher payload data rates. This results in an increased transmitter duty cycle.

### **Change 3:**

The firmware is modified to support adaptive frequency hopping for improved coexistence with other services.

If you have any questions regarding this application, please contact Mr. Klaus Buhmann, Höft & Wessel AG (+49-511-6102-0).

Sincerely,

Dr. Andreas Müller  
Director R&D  
Höft & Wessel AG
