

Subject: **Request for Class II Permissive Change**

TO WHOM IT MAY CONCERN

About our product: MTP40, FCC ID: POUMTP40, we want to apply Class II permissive change and the differences between MTP40 and new MTP40S are as below:

FCC ID	Prod. Name	New Product name
POUMTP40	MTP40	MTP40S

"Modification is related to a small part of audio PCB showed under red circle on the attached excerpt of schematics and it will not affect audio in normal operation since it implements a smoother limiting (to avoid audible distortion) while keeping unaffected all reference parameters as max deviation. The change is just related to this part of PCB the RF part, power and display are unchanged"
