

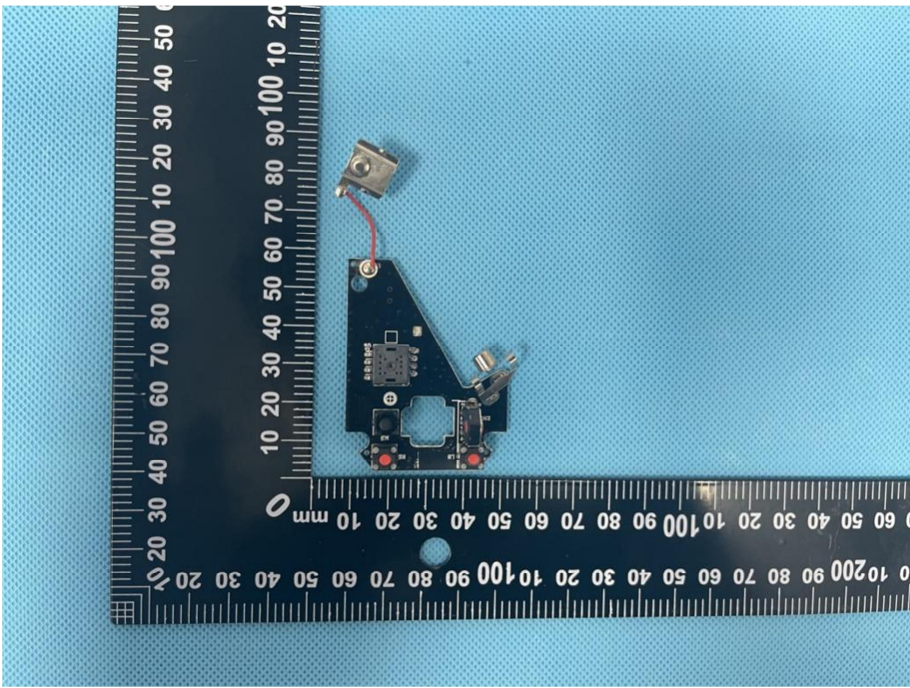

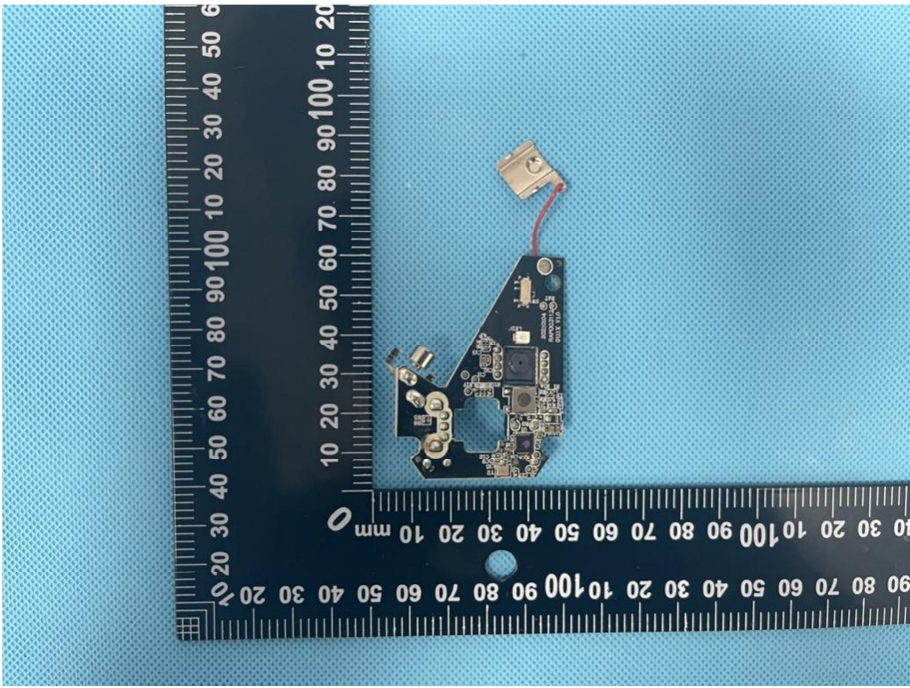

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the external components of the EUT housing. On the left is the top cover, which features a central button and two small red and blue indicator lights. In the center is a small, black USB receiver. On the right is the bottom cover, which has a circular cutout and some printed text, including the brand name 'Pipico'. A black ruler with white markings is placed below the components for scale, showing measurements in millimeters.</p>
<p>EUT Housing and Board View 2</p>	 <p>This photograph shows the internal components of the EUT housing. The top cover is open, revealing the internal PCB and various electronic components, including a battery, a USB receiver, and several integrated circuits. The bottom cover is also open, showing its internal structure. A black ruler with white markings is placed below the components for scale, showing measurements in millimeters.</p>

<p>Solder Board-Component View 1</p>	 A photograph of a small, dark blue printed circuit board (PCB) component. The board is irregularly shaped and features several components, including a small square component at the top, a red wire, and various surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 100mm and 120mm marks.
<p>Solder Board-Component View 2</p>	 A photograph of the same PCB component from a different perspective. This view shows the underside of the board, revealing the solder joints and the components on the reverse side. The board is again placed on a blue textured surface next to a black ruler with white markings, showing its position relative to the 100mm and 120mm marks.
