RE: FCC ID: PVT-T70MH3_ATCB004680

Attention: Kathy Grzovic

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the report "2007117 IKUSI T70M FCC&IC Report Only R0.00.pdf" is unreadable and cannot be opened. Please note that the review cannot proceed until a readable report has been provided. Please provide a report that can be opened.
2. Please note that while a 15.249 device has no requirements to list power on the grant, the 731 states the power out of this device is .0018W. Please note that as the test report cannot be opened to review, this indicates that the device is not compliant with the rules for the following reasons: a 1.8mW device (2.55dBm) would relate to a field strength of approximately 109.55uV/m. The limit for 15.249 is 94dBuV/m. Please explain.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
