McLean, Va 22101

REF: IKUSI PVT-TM60

October 15, 2001

Dear Mr Graff,

The purpose of this letter is to certify that the frequency range of TM60 cannot be altered by anyone other than IKUSI. The frequency range is predicated on both hardware and proprietary programming. Under no circumstances can the units be altered to operate outside the 430 to 440 MHz range once they are manufactured in this range.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ron Snyder'.

Ron Snyder

Director of Sales & Marketing
