

### 13. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph showing a white rectangular test chamber on a table inside an anechoic chamber. A blue antenna is mounted on top of the chamber, and various cables are connected to it. The walls of the chamber are covered with black pyramidal absorbers.	A photograph showing the back of the white rectangular test chamber. A red antenna is mounted on top, and blue straps are used to secure it. The chamber is on a table in an anechoic chamber.
A photograph showing the white rectangular test chamber from a different angle. A red antenna is mounted on top. In the foreground, there is a black absorber structure. The chamber is on a table in an anechoic chamber.	A photograph showing the back of the white rectangular test chamber. A red antenna is mounted on top. The chamber is on a table in an anechoic chamber.
A photograph showing a yellow table with a black device on top. A power cord is plugged into the device. The table is in a laboratory setting.	A photograph showing a side view of the yellow table. A black device is on top, and a power cord is plugged into it. A blue piece of equipment is visible in the background.
