⚠   Warning

📶   A service or function is network- or subscription-dependent. Contact your network operator for details.

>   Use a selection or navigation key to scroll and select. See *Navigation* on page 15.

Getting started

Assembly

Before you start using your phone, you need to insert a SIM card and the battery.

To insert the SIM card
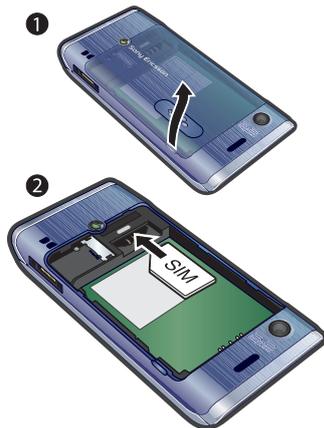

1 Remove the battery cover.
2 Slide the SIM card into its holder with the gold-coloured contacts facing down.

To insert the battery

1 Insert the battery with the label side up and the connectors facing each other.
2 Slide the battery cover into place.

Turning on the phone

To turn on the phone

1 Press and hold down ①.
2 Enter your SIM card PIN, if requested and select OK.
3 Select a language.
4 Select Yes to use the setup wizard.

💡 *To correct a mistake when you enter your PIN, press ©.*

❗ *Before turning the phone off, you must return to standby.*
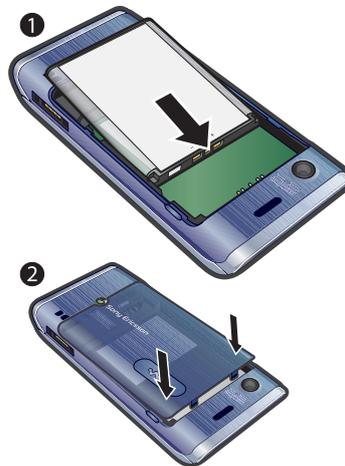

SIM card
The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card.

💡 *You can save contacts on the SIM card before you remove it from your phone. See To copy names and numbers to the SIM card on page 39.*

PIN
You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

❗ *If you enter the wrong PIN three times in a row, the SIM card is blocked. See SIM card lock on page 69.*

Standby
After you have turned on your phone and entered your PIN, the name of the network operator appears. This view is called standby. Your phone is now ready for use.

Help

In addition to this User guide, Getting started guides and more information are available at *www.sonyericsson.com/support*.

Help and information are also available in your phone.

To view tips and tricks
1 From standby select Menu > Settings > the General tab > Setup wizard.
2 Select Tips and tricks.

To view information about functions
• Scroll to a function and select Info, if available. In some cases, Info appears under Options.

To view the phone demonstration
• From standby select Menu > Entertainment > Demo tour.

To view the phone status
• From standby press the volume key up. Phone, memory and battery information is shown.

Charge the battery

Your phone battery is partly charged when you buy it.

! *It may take 30 minutes for the battery icon to appear on the screen.*

Using the USB charger

To connect the charger and charge the battery (The illustrations are for guidance only and may not accurately depict the actual phone)
1 Connect the USB cable (you can get instruction for three conditions from **Note**) plug to the AC adapter USB socket, as shown in the above illustration. The USB cable is supplied with your phone.

2 Connect the USB cable connector to your phone. Press a key to view the charging status on the screen. It takes approximately 2.5 hours to fully charge the battery.

To remove the charger

1 Charge your battery until the battery icon indicates a full charge.

2 Tilt the USB charger connector upwards to remove it.

Note:

1 If there are two USB cables in the kit (USB cable for charging and USB cable for data transferring. See the illustrations as below), then the USB cable for charging **is only intended for charging your phone. Do not use it for transferring data.**

The USB cable for the USB charger is only intended for connection to the AC adapter to charge your phone. **It must not be used for connection to a PC. It can only be used for charging your phone. Never use it for charging accessories.**

USB cable for charging   USB cable for transferring

2 If there is only one USB cable in the kit, it is intended for charging your phone as well as transferring data.

3 If there is only one USB cable for the USB charger in the phone kit, this USB cable is only intended for charging your phone.

4 Sony Ericsson strongly recommends that you **use only Sony Ericsson branded original batteries, the part of power supply device in accordance with YD/T 1591-2006 specifications of Communications Industry Standards of P. R. China and the USB cable supplied with your phone to charge the phone.** The use of third-party products may decrease the performance of your phone and/or pose a risk to your health or safety.

🔅 *You can charge the battery for more or less than 2.5 hours. Interrupted charging will not damage the battery.*
Performance depends on temperatures, signal strenth, usage patterns, features selected and voice or data transmissions. The stand-by time for this battery is up to 385 hours.

⚠️ *Use only Sony Ericsson branded original batteries intended for use with your mobile phone. If you use other batteries you may not be able to charge your phone.*
