A white Sony Ericsson EP500 battery is shown lying flat on a light-colored wooden surface. A wooden ruler is placed horizontally below the battery, with markings in centimeters visible from 16 to 25. The battery has a black plastic strip along its left edge. On the left side of the white face, there are two circular symbols: a minus sign (-) at the top and a plus sign (+) below it. In the upper center, there is a small, square, translucent window showing a dark, circular internal component. Below this window, the model number "EP500" is printed in large, bold, black capital letters. To the right of the model number, the Sony Ericsson logo (a stylized "S" and "E" inside a circle) is printed, followed by the text "Sony Ericsson" in a smaller, black, sans-serif font.
