CHANGES IN DESIGN – PERMISSIVE CHANGE CLASS 2

Pursuant to Sections 2.1043 of the Commission's Rules, the Applicant hereby requests approval for changes in design planned for product FCC ID: PYARM-601.

This software update enables wireless router –feature. There is no hardware modifications related to this change. Availability of WiFi hotspot/router software applications is controlled by Nokia through our Ovi Store. We manage our inventory of content in the Ovi Store to ensure that WiFi hotspot/router software applications are not made available for the device until such time that we receive the requested equipment authorization for this Class II Permissive Change from the Commission.
