Telecommunication Certification Body
Radio Frequency Investigation Ltd.
Ewhurst Park
Ramsdell
Basingstoke
Hampshire
RG26 5RQ
England

Subject: Certification Application, FCC ID: Q52-13EAQ52

It is requested that the following information is to be held confidential on behalf of SafTGlo Inc.

FCC Rules Part 0.459 refers. For all the **exhibits** listed below, the following statement applies:

The information is commercial in confidence, would be of benefit to competitors, and is not available in the public domain, nor has it been released into the public domain.

The information is the product of a lengthy design and development process and is not to form part of any information available to prospective customers who will be users of a system containing this component. Substantial competitive harm would result if the information were available to our competitors.

The information contained within the Installation Guide (STG Document STGIM-RS001) is commercial in confidence because the product is an internal board that will be assembled into complete units that require FAA certification approvals. The installation instructions will only be of use to STG Aerospace and it's suppliers, thus the Installation guide will not be in the public domain.

The information has been held in commercially secure places, and any external body handling it has been subject to Non-Disclosure Agreements. The information should not be made available for public disclosure for period of at least 10 years. Only after this time will newer generations of design will be available.

Exhibits:

External and Internal Photographs	1 file	3 pages	"RS001 photos.pdf"
