FCC ID: Q8SRFIDENC1
IC ID: 4652A-RFIDENC1

Product Name: Kaba RFID Encoder

Class II Permissive Change

Dear Examiner,

This is to request a Class II Permissive change for the "Kaba RFID Encoder", originally certified in June 2018.

The change under this application is to add one new model to the listing:

- Kiosk Secure RFID Encoder: Encoder for RFID credentials in Kiosks applications.

The change in this model compared with the current model in file is the PCB trace loop antenna has been made external to the product enclosure. Also, this new model is powered up only by USB power supply.

Yours sincerely,

Name: Sergio Olivera
