ข้อมูลเกี่ยวกับความปลอดภัยและกฎหมายป้องกัน

### WARNING: A WARNING indicates a potential for property damage, personal injury, or death.

### Adapter Safety

⚠️ WARNING: Use only the Dell-provided AC adapter approved for use with this device. Use of another AC adapter may increase the risk of a fire or explosion.

The AC adapter may become hot during normal operation of your computer. Ensure adequate ventilation and use care when handling the adapter during or immediately after operation. Do not use an auto adapter DC power cable connected by either an automobile cigarette lighter adapter or an empower-type connector in vehicles with high voltage (24 VDC), such as commercial transport vehicles.

### Battery Safety

### WARNING: Using an incompatible battery or a third-party battery may increase the risk of fire or explosion. Replace the battery only with a battery purchased from Dell that is designed to work with your Dell computer. Do not use a battery from other computers with your computer.

Damaged battery may pose a risk of personal injury. Damage may include impact or shock that deforms or punctures the battery, exposure to a flame, or other deformation. Do not disassemble the battery. Handle a damaged or leaking battery pack with extreme care. If the battery is damaged, electrolyte may leak from the cells or fire may result which may cause personal injury.

### Location of Radio Regulatory Labels

For some portable computers, the radio regulatory labels may be found either in the battery compartment, or under the bottom access panel.

### India RoHS Statement

This product complies with RoHS requirements as prescribed by E-Waste (Management & Handling) Rules, by the Ministry of Environment & Forests, Government of India. For further information, see [www.dell.com/regulatory\\_compliance](#).

### Waste Electrical and Electronic Equipment (WEEE) Directive

This label indicates that this product should not be disposed of with household waste. It should be deposited at an appropriate facility to enable recovery and recycling. For information on how to recycle this product responsibly in your country, please visit [www.dell.com/recycle](#).

### When Working Inside Your Device

### WARNING: Hazardous moving parts. Keep away from the moving fan blades.

Do not attempt to service the equipment yourself, except as explained in your Dell documentation or in instructions otherwise provided to you by Dell. Always follow installation and service instructions closely.

Internal components may become very hot during normal operation. Before touching any internal components, allow time for them to cool.

Disconnect all cables from the portable computer including the phone cable before opening the memory/modem access door.

Check the voltage rating before you connect the equipment to an electrical outlet to ensure that the required voltage and frequency match the available power source.

If your device has a manual voltage-selection switch, your voltage-selection switch on the back panel must be manually set to operate at the correct operating voltage used in your location.

To prevent electric shock, plug the equipment power cables into properly grounded electrical outlets, and use only the approved power cables rated for the equipment.

For 3 pin plugs, do not use adapter plugs without the ground pin or remove the ground pin from the plug.

### Safety and Regulatory Information

You can find additional Safety Best Practices and information REACH, Electromagnetic Compatibility (EMC), Ergonomics, Transportation, and Tuners on the Regulatory Compliance page, [www.dell.com/regulatory\\_compliance](#).

⚠️ WARNING: Use of controls, adjustments, procedures, connections, or signal types other than those specified in your documentation may result in exposure to shock, electrical hazards, and/or mechanical hazards.

⚠️ WARNING: Dell products are not certified as medical electrical equipment, and are not intended for use in close proximity to patients or in oxygen rich environments.

Dell products are not designed for use in hazardous environments.

Dell products are not designed or intended for use in operating or calibrating medical devices.

⚠️ WARNING: Do not operate your equipment with any covers (including computer covers, bezels, filler brackets, front-panel inserts, and so on) removed.

Do not use your equipment in a wet environment.

Protect equipment from liquid intrusion.

Do not use damaged equipment, including exposed, frayed, or damaged power cords.

Do not push any objects into the air vents or openings of your equipment. Doing so can cause fire or electric shock by shorting out interior components.

Do not allow your portable computer or adapter to operate with the base resting directly on exposed skin for extended periods of time. The surface temperature of the base will rise during normal operation, particularly when AC power is present. Allowing sustained contact with exposed skin can cause discomfort or burn.

To remove a portable computer from all power sources, turn the computer off, disconnect the AC adapter from the electrical outlet, and remove any battery installed in the battery bay or module bay.

#### 使用過度恐傷害視力

- (1) 使用30分鐘請休息10分鐘。
- (2) 2歲以下幼兒不看螢幕，兩歲以上每天看螢幕不要超過1小時。

PERINGATAN:	PERINGATAN menunjukkan kemungkinan terjadinya kerusakan properti, cedera pribadi, atau kematian.
-------------	--

Informasi Keselamatan dan Peraturan	Anda dapat menemukan Praktik Terbaik Keselamatan tambahan dan informasi tentang REACH, Kesesuaian Elektromagnetik (Electromagnetic Compatibility/EMC), Ergonomi, Transportasi, dan Tuner pada halaman Kepatuhan terhadap Peraturan. <a href="http://www.dell.com/regulatory_compliance">www.dell.com/regulatory_compliance</a> .
-------------------------------------	--

PERINGATAN:	Penggunaan kontrol, pengaturan, prosedur, koneksi, atau tipe sinyal selain yang tertera dalam dokumentasi dapat menimbulkan sengatan listrik dan/atau bahaya mekanik.
-------------	---

PERINGATAN:	Produk Dell tidak terdaftar sebagai peralatan listrik medis, dan tidak ditujukan untuk digunakan di dekat pasien atau di tempat yang mengandung banyak oksigen.
-------------	---

- Produk Dell tidak dirancang untuk digunakan di tempat yang berbahaya.
- Produk Dell tidak dirancang atau ditujukan untuk mengoperasikan atau mengkalibrasi peralatan medis.

**PERINGATAN:** Jangan mengoperasikan peralatan apabila tutup (termasuk tutup komputer, bezel, bracket pengisi, sisip panel depan, dan lainnya) dalam keadaan terlepas.

• Jangan gunakan peralatan di tempat yang basah. Lindungi peralatan dari air.

• Jangan gunakan peralatan yang rusak, termasuk kabel yang rusak, berjumput, atau rusak.

• Jangan memasukkan benda apa pun ke dalam ventilasi udara atau lubang pada peralatan. Melakukan hal tersebut dapat menyebabkan kebakaran atau sangat berisiko pada komponen bagian dalam.

Jangan biarkan laptop atau adaptör Dell beroperasi dengan baterai yang tidak cocok dengan kualitas yang terdapat dalam jangka waktu yang lama. Suhu pemakaian pada bagian dasar akan terus meningkat selama pengoperasian normal, terutama saat terdapat arus listrik AC. Kontak terus-menerus dengan kulit turunkan dapat menyebabkan iritasi atau membakar kulit.

Untuk melapar laptop dari semua sumber daya, matikan komputer, putuskan koneksi adaptör AC dari stopkontak, dan lepas baterai yang terpasang dalam komputer.

**アダプタ使用上の安全**

**警告:** このデバイスでの使用を認められたデル製のACアダプタをお使いください。他のACアダプタを使用すると、火災または爆発の危険性が高くなる場合があります。

ACアダプタは通常のコンピュータの動作中でも熱くなることがあります。ACアダプタの使用中または使用直後は、十分な通気を確保し、取り扱いにご注意ください。自動車シガレットライター用アダプタなどは商用送機などに設置された高電圧(24 VDC)のEmPowerコネクタを介して接続されたオートアダプタ DC電源ケーブルは使用しないでください。

**バッテリの安全**

**警告:** 本品に記載されている、コントロール、調整、手順、また信号線以外を使用する事、ショック、電気的危険、または爆発の危険性があります。

**警告:** Dell製品は医療電気器具として認証されておらず、患者近くまたは酸素濃度の高い環境での使用を目的としていません。

• Komponen internal dapat menjadi sangat panas selama pengoperasian normal. Sebelum menyentuh komponen internal apa pun, biarkan komponen mendingin terlebih dahulu.

• Putuskan semua kabel dari laptop termasuk juga kabel telepon sebelum membuka pintu aksesori/modem.

• Periksa laju tegangan sebelum menghubungkan peralatan ke stopkontak untuk memastikan bahwa tegangan dan frekuensi yang diperlukan sesuai dengan sumber daya yang tersedia.

• Apabila perangkat memiliki saklar tegangan manual, saklar yang ada pada panel belakang harus diatur secara manual agar dapat beroperasi pada tegangan pengoperasian yang tepat yang digunakan di lokasi Anda.

• Untuk mencegah sengatan listrik, sambungkan kabel listrik peralatan ke dalam stopkontak yang telah di-ground dengan benar, dan hanya gunakan kabel listrik yang dilizinkan untuk digunakan dengan peralatan.

• Untuk steker 3 kali, jangan gunakan steker adaptör tanpa pin ground atau lepas pin ground dari steker.

**Keamanan Adaptor**

**PERINGATAN:** Hanya gunakan adaptör AC Dell yang telah disetujui untuk digunakan dengan perangkat ini. Penggunaan adaptör arus AC lain dapat menimbulkan sengatan listrik dan/atau bahaya mekanik.

**PERINGATAN:** Produk Dell tidak terdaftar sebagai peralatan listrik medis, dan tidak ditujukan untuk digunakan di dekat pasien atau di tempat yang mengandung banyak oksigen.

• Produk Dell tidak dirancang untuk digunakan di tempat yang berbahaya.

• Produk Dell tidak dirancang atau ditujukan untuk mengoperasikan atau mengkalibrasi peralatan medis.
