

American Telecommunications Certification Body Inc.  
6731 Whittier Ave, McLean, VA 22101

January 10, 2007

RE: Huawei Technologies Co., Ltd

FCC ID: QISC2299

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Does the Applicant desire "Temporary Confidentiality"? There are many documents indicated as "Temporary Confidential", but there is no Temporary Confidential This document is different from Standard Confidentiality. Provide separate Short Term Confidentiality letter if desired.
- 2.) Please provide a signed Form 731.
- 3.) The product description, section 2.1 confirms this device can connect to a computer with a data cable. Therefore, there also must be a separate equipment authorization as a "Computer Peripheral" under either Part 15B Certification process or DoFC. Please review and advise.
- 4.) Section 2.5 of the Product Description indicates that this device is capable of +23dBm. The Tune Up procedure indicates +24.5dBm. The SAR report indicates a range of +24.6 to +23.9dBm. Appendix J shows +24.3 to +24.4dBm And the EMC report shows every channel puts out +24.4dBm. What is the correct power? I must have agreement to 10% accuracy to properly evaluate this device. All TCBs are required to be certain a device was set to the highest expected RF power settings.
- 5.) Please provide all data and calculations used for the radiated power test. All I have in Appendix 1 is a print out of an instrument display. This has no meaning without supporting calculations or data. Please include signal generator level, cable loss, antenna factors, SA readings including RBW/VBW settings etc.
- 6.) Please provide external attenuator settings and cable loss used for the Occupied Bandwidth, conducted Spurious Emissions plots, and the Band Edge plots. Are these correction values accounted in the plots presented?

William H. Graff  
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
