

Appendix D

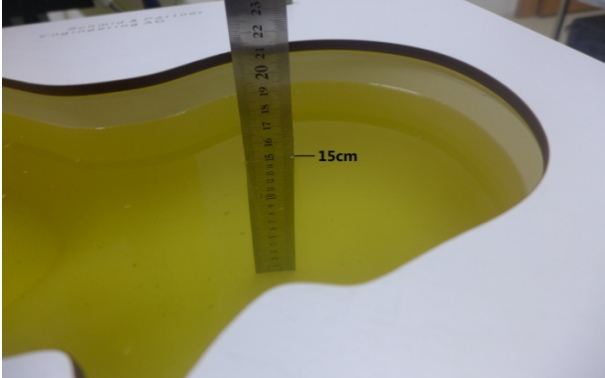

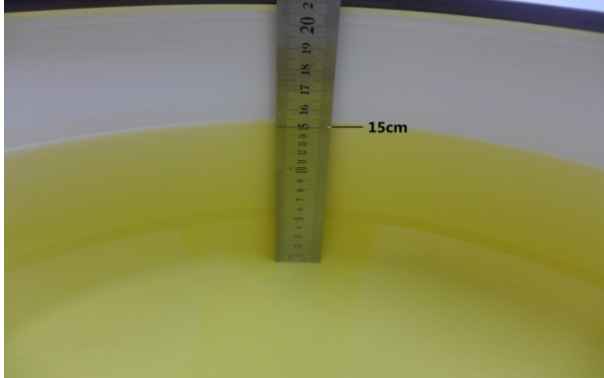

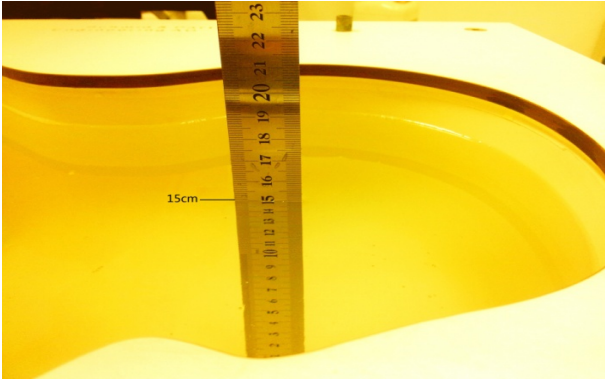

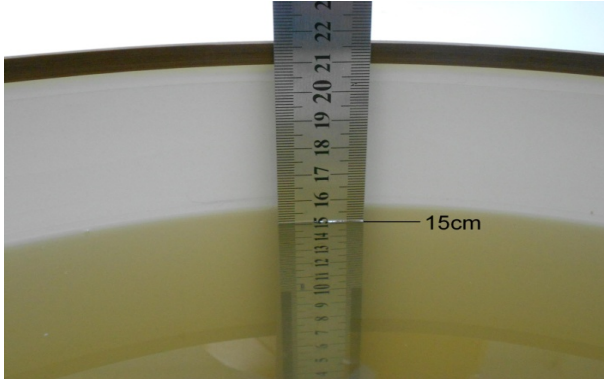

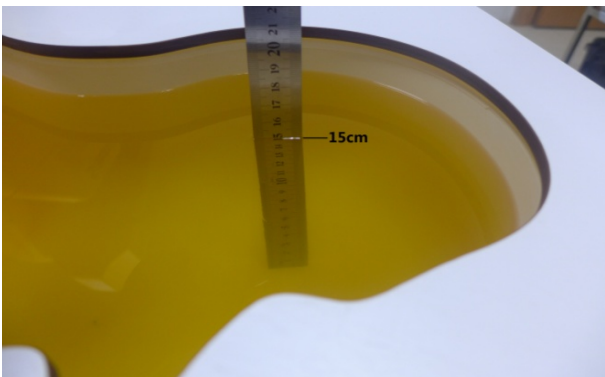

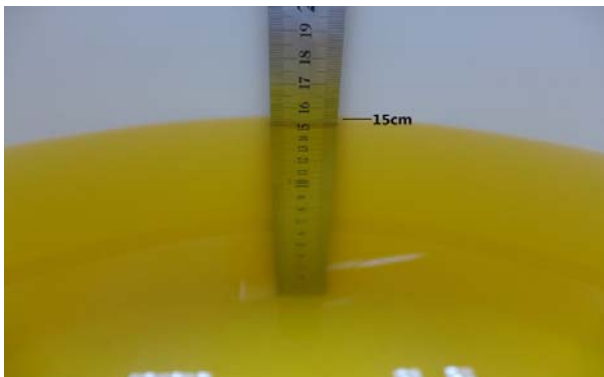

Photographs

1. SAR measurement System
2. Photographs of Tissue Simulate Liquid
3. Photographs of EUT test position
4. EUT Constructional Details

1. SAR measurement System

2. Photographs of Tissue Simulate Liquid

<p>Photo 1: Tissue Simulant Liquid for Head 750</p>	<p>Photo 2: Tissue Simulant Liquid for Body 750</p>
	
<p>Photo 3: Tissue Simulant Liquid for Head 835</p>	<p>Photo 4: Tissue Simulant Liquid for Body 835</p>
	
<p>Photo 5: Tissue Simulant Liquid for Head 1750</p>	<p>Photo 6: Tissue Simulant Liquid for Body 1750</p>
	

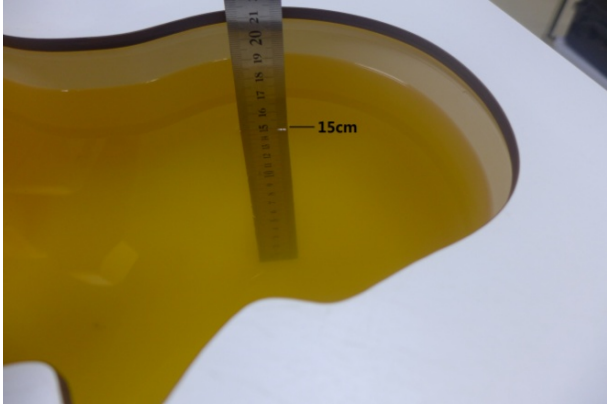

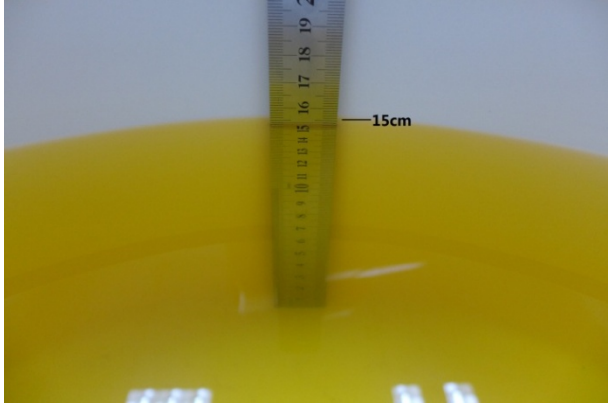

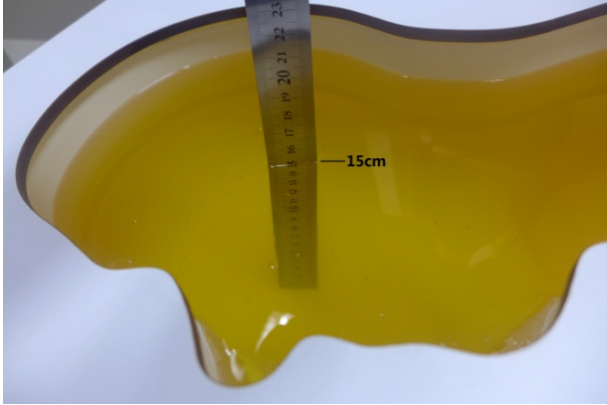

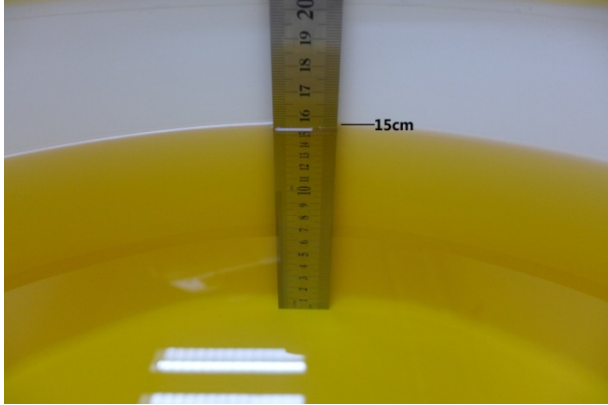

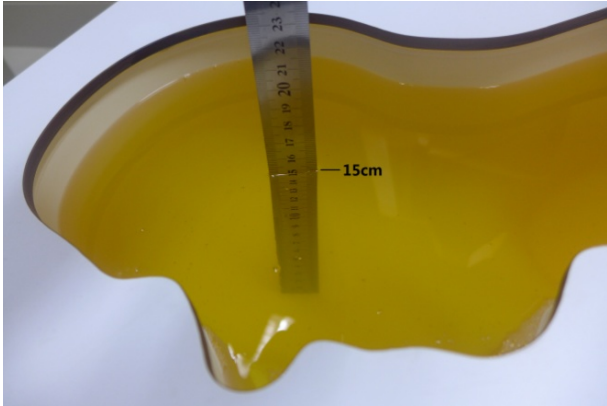

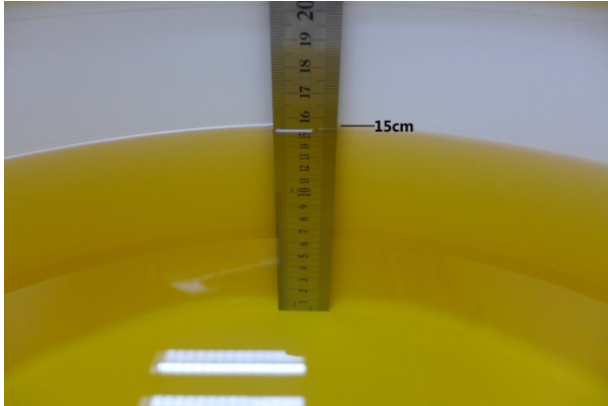

<p>Photo 7: Tissue Simulant Liquid for Head 1900</p>	<p>Photo 8: Tissue Simulant Liquid for Body 1900</p>
	
<p>Photo 9: Tissue Simulant Liquid for Head 2450</p>	<p>Photo 10: Tissue Simulant Liquid for Body 2450</p>
	
<p>Photo 11: Tissue Simulant Liquid for Head 2600</p>	<p>Photo 12: Tissue Simulant Liquid for Body 2600</p>
	

Photo 13: Tissue Simulant Liquid for Head 5G

Photo 14: Tissue Simulant Liquid for Body 5G

3. Photographs of EUT test position

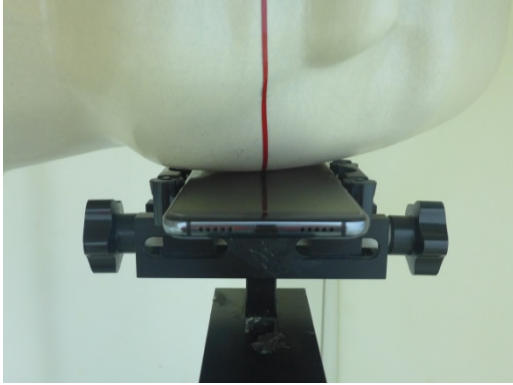

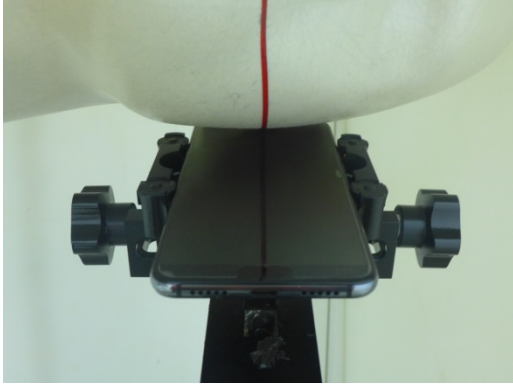

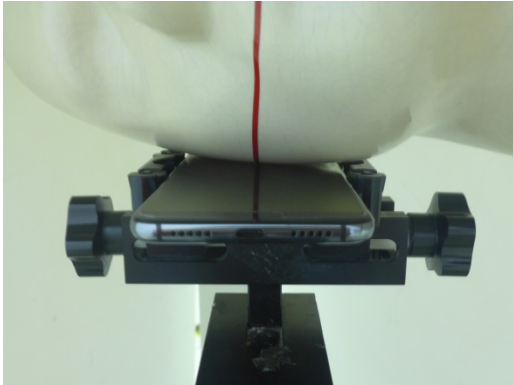

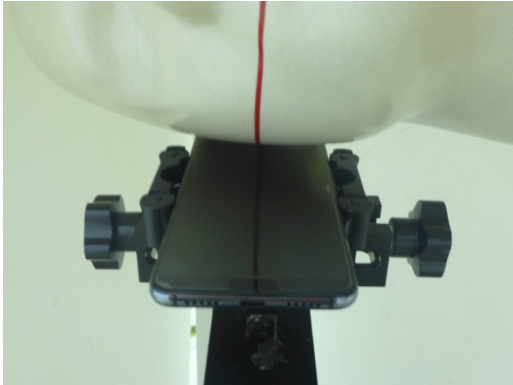

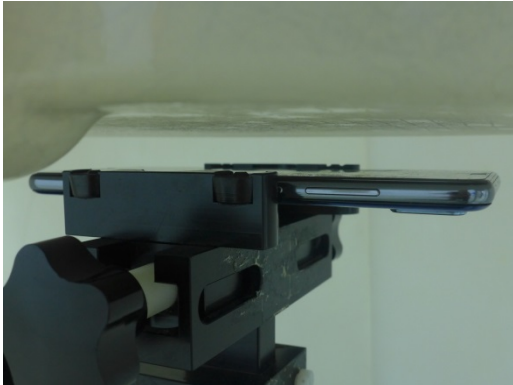

<p>Photo 15: Left touch cheek</p>	<p>Photo 16: Left tilted 15 degree</p>
 A photograph showing a smartphone held in a black test fixture. A white mannequin head is positioned above the phone, with a red vertical line on its cheek touching the top edge of the phone's screen.	 A photograph showing the same smartphone and fixture setup as in Photo 15, but the mannequin head is tilted to the left by 15 degrees, so the red line on its cheek is now touching the left side of the phone's screen.
<p>Photo 17: Right touch cheek</p>	<p>Photo 18: Right tilted 15 degree</p>
 A photograph showing the smartphone and fixture setup. The white mannequin head is positioned above the phone, with a red vertical line on its cheek touching the top edge of the phone's screen.	 A photograph showing the same smartphone and fixture setup as in Photo 17, but the mannequin head is tilted to the right by 15 degrees, so the red line on its cheek is now touching the right side of the phone's screen.
<p>Photo 19: Front side 15mm</p>	<p>Photo 20: Back side 15mm</p>
 A close-up photograph of the smartphone held in the black test fixture, showing the front side of the device.	 A close-up photograph of the smartphone held in the black test fixture, showing the back side of the device.

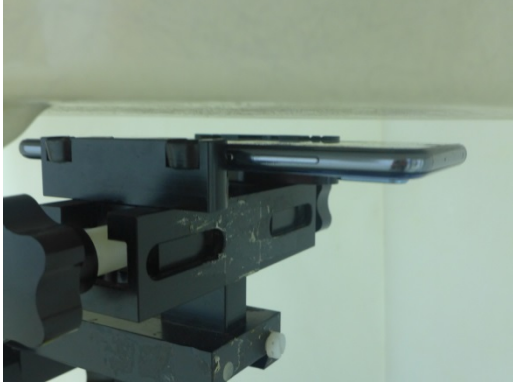

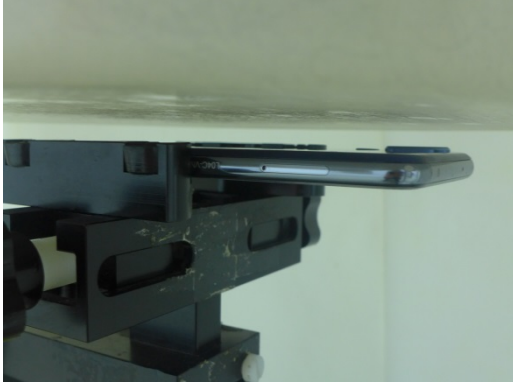

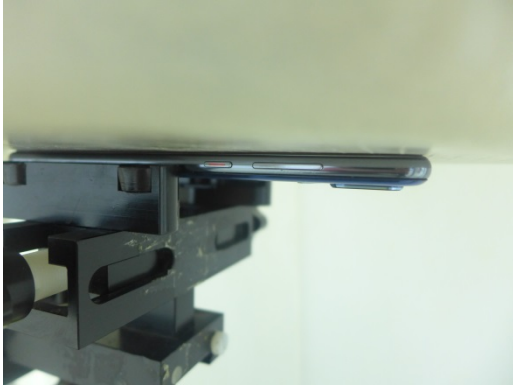

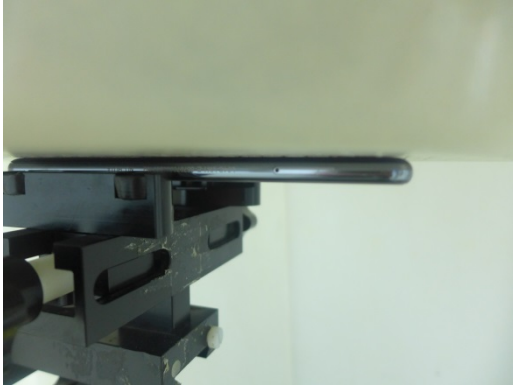

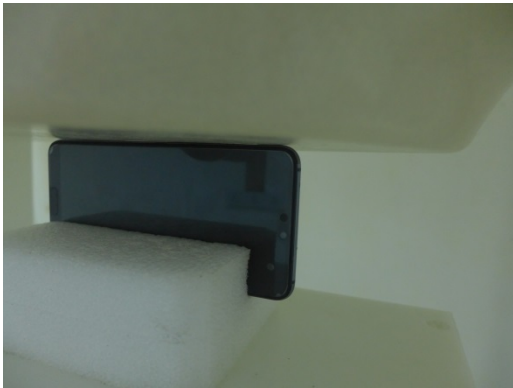

Photo 21: Front side 10mm	Photo 22: Back side 10mm
	
Photo 23: Left side 10mm	Photo 24: Right side 10mm
	
Photo 25: Top side 10mm	Photo 26: Bottom side 10mm
	

Photo 27: Front side 0mm	Photo 28: Back side 0mm
 A close-up photograph of a dark-colored smartphone held horizontally in a black metal vise. The phone is positioned against a light-colored background, and the camera is positioned directly in front of the phone's screen.	 A close-up photograph of the same smartphone held horizontally in a black metal vise, viewed from the back. The camera is positioned directly behind the phone's back cover.
Photo 29: Left side 0mm	Photo 30: Right side 0mm
 A close-up photograph of the smartphone held vertically in a black metal vise. The camera is positioned to the left of the phone, capturing its left edge.	 A close-up photograph of the smartphone held vertically in a black metal vise, viewed from the right side. The camera is positioned to the right of the phone, capturing its right edge.
Photo 31: Top side 0mm	Photo 32: Bottom side 0mm
 A close-up photograph of the smartphone held vertically in a black metal vise. The camera is positioned directly above the phone, capturing its top edge.	 A close-up photograph of the smartphone held vertically in a black metal vise, viewed from the bottom. The camera is positioned directly below the phone, capturing its bottom edge.

4. EUT Constructional Details
