

Supersede Request Statement

Dear sirs or madams of Federal Communications Commission.

Regarding our finished application under FCC ID: QISDC750, there we need to do the following supersede action:

The replacement of the test report and RF Exposure.

We just change the product name from Cable Set Top Box to High Definition Digital Transport Adapter on the test report and RF Exposure. And the others are all the same.

Could you kindly allow us to do supersede action?

Sincerely,

A handwritten signature in black ink that reads "Zhang Xinghai".
