We will change the keyboard、 shape、 camera and antenna in U5715 based on U5705 .But the PCB (include IC) is the same. U5705 had gotten the certification of CE and FCC. Although the changes are permissive, we do the tests of EMC/SAR/Safety again in security.

The figure of antenna will be changed in U5715 to ensure that U5715 can obtain the

same TRP and TIS with U5705. You can see the differences from the following picture.
