## 2.6.2 Notification Panel

Your mobile phone will notify you when you receive a new message or there is an incoming event. The notification panel also informs you about alarms and settings, for example, when **Call forwarding** is activated. Open the notification panel to see who the wireless network operator is or to view a message, reminder, or event notification.

### Opening the Notification Panel

1. When a new notification icon appears on the notification bar, touch and hold the notification bar, and then flick down to open the notification panel.
2. On the notification panel, you can do the following:
  - Touch a notification to open the related application.
  - Touch **Clear** to clear all notifications.

### Closing the Notification Panel

Touch and hold the bottom of the panel. Then flick up to close it.

## 2.6.3 Viewing Other Parts of the Home Screen

Flick your finger left or right across the Home screen.

## 2.6.4 Customizing the Home Screen

### Adding a New Screen Item

1. Touch and hold a blank area on the Home screen until the **Add to Home screen** menu is displayed.
2. Select an item to add it to the Home screen.

### Moving a Screen Item

1. Touch and hold an item on the Home screen until the item expands in size and the mobile phone vibrates.
2. Without lifting your finger, drag the item to the desired position on the screen, and then release it.

### Removing a Screen Item

1. Touch and hold an item on the Home screen until the item expands and the mobile phone vibrates.
2. Without lifting your finger, drag the item to the trash can. When the item and the trash can turn red, the item is ready to be removed.
3. Release the item to remove it from the Home screen.

## 2.7 Using a microSD Card

### 2.7.1 Installing the microSD Card (Optional)

1. Remove the battery cover.
2. Insert the microSD card into the card slot as shown in the diagram.

### 2.7.2 Using the microSD Card as USB Mass Storage

To transfer all your favorite music and pictures from your PC to your mobile phone's microSD card, set the microSD card as USB mass storage.

1. Connect your mobile phone to your PC with the USB cable. Your PC will detect the microSD card as a removable disk.
2. Open the notification bar, and then touch **USB connected**.
3. Touch **Turn on USB storage** in the dialog box that opens to confirm that you want to transfer files.

You can now transfer files from your PC to your mobile phone's microSD card.

- ⓘ When your microSD card acts as USB mass storage, your mobile phone will not use this memory space. Your PC will tell you how to safely disconnect the USB mass storage device (your mobile phone) when you have finished transferring files.

### 2.7.3 Removing the microSD Card

1. Touch **⋮** > **Settings**.
2. Scroll down the screen, and then touch **SD card & phone storage** > **Unmount SD card**.
3. Carefully remove the microSD card.

## 3 Calling

To make a phone call, you can dial a number or touch a number from your contact list, on a Web page, or in a document. When you are on a call, you can answer other incoming calls or send them to your voicemail box. You can also set up conference calls with several participants.

### 3.1 Making a Call

To make a call, you can use the **Phone** application, or select a number from **Contacts** or **Call log**.

When you are on a call, you can press  to use other functions. To return to the calling screen, flick the notification bar down and touch **Current call**.

 Do not block the microphone at the bottom of your phone if you want your voice heard.

#### 3.1.1 Making a Call with the Dialer Application

1. Touch  > **Dialer** to display the dialer.

If you are already working with **Contacts** or **Call log**, touch the **Dialer** tab.

2. Touch the appropriate numeric keys to enter the phone number.

 Your mobile phone supports the SmartDial function, that is, when you touch numbers on the dialer, the phone automatically searches among your contacts and lists the matching results based on the accuracy. If no contact is matched with your entered information, the phone will not display any result.

3. Touch  to initiate the call.

#### 3.1.2 Making a Call from Contacts

1. Touch  > **Contacts** to display the contact list.

If you are already working with **Phone** or **Call log**, touch the **Contacts** tab.

## 3.2.3 Rejecting an Incoming Call

Drag the  to the left to reject the call.

## 3.3 Other Operations During a Call

### 3.3.1 Making a Conference Call

If you receive a new call while you are already on a call, you can connect the second call to the call you are on. This feature is known as conference calling. You can also set up a conference call with multiple callers.

- ❗ Contact your network operator to learn if conference calls are supported and, if yes, how many can participate.
- 1. To initiate a conference call, dial the number of the first participant. After you have connected to the first participant, keep the connection open, touch  > **Add call**.
- 2. Enter the phone number of the next person you want to join the conversation and touch , or select someone from your **Call log** or **Contacts**. The first participant is automatically placed on hold while you do this.
- 3. Once you have connected to the second person, touch  > **Merge calls** to begin the conference call.
- 4. To add more people, touch  > **Add call**, and then repeat steps 2 and 3.

5. To end the conference call and disconnect everyone, touch  > **End call**press  or touch  > **End call**.

### 3.3.2 Switching Between Calls

If you receive a new call while you are already on a call, you can switch between the two calls.

1. While you are on the first call and the second call comes in, answer the incoming call, and then touch  > **Swap calls**.
2. The current call is placed on hold and you are connected to the first call.

## 3.4 Using Call log

The **Call log** contains a list of calls that you have dialed, received, or missed. You can use the call log to reference a recently called number quickly or add an incoming number to your contact list.

### 3.4.1 Adding an entry to Contacts

1. If you are already working with **Phone** or **Contacts**, touch the **Call log** tab.
2. Touch and hold the entry you want to add.
3. Touch **Add to contacts** in the options menu.
4. Touch **Create new contact** or scroll through the contact list and touch an existing contact name.

## 3.5 Using Airplane Mode

Some locations may require you to turn off your phone's wireless connections. Rather than powering off your phone, you can place it in **Airplane mode**.

1. Press and hold  .
2. Touch **Airplane mode** in the options menu.

# 4 Contacts

The **Contacts** application enables you to save and manage information such as phone numbers and addresses of your contacts. After you save contact information on your mobile phone, you have easy access to the people with whom you want to communicate.

## 4.1 Opening the Contacts Application

If you have a new mobile phone and have not yet added any contacts, **Contacts** displays a message with hints on how to start adding contacts to your mobile phone.

Touch  > **Contacts** to open the **Contacts** application.

All of your contacts are displayed alphabetically in a list that you can scroll through.

## 4.2 Importing Contacts from a SIM Card

1. In the contact list, press  > **Manage contacts**.
2. Touch **Copy from SIM card**.
3. Wait for the SIM card contents to be loaded. Select the contacts you want to import or touch **Select all** to select all contacts.
4. Touch **Copy**.

2. If you have more than one account with contacts, touch the account to which you want to add the contact.
3. Enter the contact's name, and then add detailed information such as phone number or address.
4. When you are finished, touch **Done** to save the contact information.

### 4.3.1 Adding a Contact to Your Favorites

- Touch and hold the contact you want to add to **Favorites**. Then touch **Add to Favorites**.
- Touch a contact, and then touch the star to the right of the contact's name. The star turns gold.

## 4.4 Searching for a Contact

1. In the contact list, touch  > **Search**.
2. Enter the name of the contact you wish to search for. As you type, contacts with matching names appear below the search box.

## 4.5 Editing a Contact

You can make changes to the information you have stored for a contact at any time.

1. In the contacts list, touch and hold the contact whose details you want to edit, and then touch **Edit contact** in the options menu.
2. Touch the category of contact information you wish to change: name, phone number, email address, or any other information you recorded earlier.
3. Make the desired changes to the contact information, and then touch **Done**. To cancel all of your changes, touch **Cancel**.

## 4.6 Communicating with Your Contacts

From the **Contacts** or **Favorites** tab, you can quickly call or send a text (SMS) or multimedia message (MMS) to a contact's default phone number. You can also open details to view a list of all the ways you can communicate with that contact. This section describes how to communicate with a contact when you view your contacts list.

### 4.6.1 Connecting Through Quick Contact for Android

1. Touch the contact's picture or picture frame (if you have not assigned a picture to the contact) to open Quick Contact for Android.

2. Touch the icon for the way you want to communicate with the contact.

- ❗ The icons available depend on the information you have entered for the contact, the applications on your phone, and the accounts you have.

## 4.6.2 Communicating with a Contact
