**FEDERAL COMMUNICATIONS COMMISSION**

7435 Oakland Mills Road  
Columbia, MD 21046  
U.S.A.

**Subject: Request for withholding from public disclosure the parts list, schematic diagrams, system block diagrams, and internal photos pursuant to an application for certification.**

**Applicant:** Sensors & Software Inc.  
**Product:** Noggin  
**Model:** NG250  
**FCC ID:** QJQ-NG250

Dear Sir/Madam,

We, **Sensors & Software Inc.**, would like to request that the **Technical Documentation** including the **Parts Lists, Schematics, System Block Diagrams, Internal Photos, and Operational Descriptions** submitted with the application for certification be withheld from public disclosure as per Section 0.459 of FCC Rules. This request is made under the provisions of Section 0.457(d) of the Commission's Rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize a withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person. Further, this material contains trade secrets and confidential information that Sensors & Software Inc. does not customarily release to the public and which is otherwise not generally available to the public.

The critical circuit elements are constructed to be embedded in materials which make access impossible without destroying the circuit boards and connections. The design is specifically intended to inhibit reverse engineering of critical proprietary system elements.

If you have any queries, please do not hesitate to contact us by our TOLL FREE number:
