Re: Change in Identification – FCCID: QRF-TRZMX55-17

This letter is to inform you that the products MX55-17, MX55-S, MX67-17, and MX67-N are electrically and functionally identical (same radio module, same amplifier, same hardware platform) to the WLM200N5-23ESD currently marketed by Complex Systems Pte Ltd. under the FCC ID TK4WLM200N5-23ESD.

The date of the original grant of equipment authorization is 09/01/2010. No modifications have been made to the construction or operation of the unit, the change in identification is solely for marketing purposes. The only difference is the product label; a sample is attached. Photographs detailing the exterior of the unit are also submitted.

The equipment bearing FCCID TK4WLM200N5-23ESD will continue to be marketed by Complex Systems Pte Ltd.

Sincerely,

Andrei Moldavanov, EMC Engineer
