Dear Application Examiner:

This application is being submitted for the certification of Schweitzer Engineering Laboratories' serial radio transceiver, the SEL-3031 [FCC ID: R34SEL-3031, IC ID: 4468A-3031]. The product is a 900MHz ISM band digital data radio module. It is seeking limited modular approval under FCC 15.247. The module will only be factory-installed by SEL in SEL equipment. The radio module provides three serial data channels, each 19,200 baud unencrypted or 9600 baud encrypted, intended for communications between electric power substations or other industrial locations with high levels of electromagnetic interference.

The radio is provided with three antenna types and LMR-400 or RG-8 coax feedline intended for installation by a professional.

The enclosed technical reports and exhibits demonstrate compliance with FCC rules 15.247.

Your efforts in reviewing this application are greatly appreciated.

Best Regards,

A handwritten signature in black ink, appearing to read "Sam Korslund", is written over a light blue horizontal line.
