Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: Navico Auckland Limited – FCC ID: RAYVHF725US  
Model: VHF-725U

To Whom It May Concern:

Enclosed please find an application for Change in FCC ID from Navico Auckland Limited. The original FCC ID: RAYVHF7100US was granted on 2/5/04.

The manufacturer has added a bluetooth to the original radio and with this added bluetooth, it became model number VHF-725U. The bluetooth was tested and a grant of certification issued for the Part 15 under the new FCC ID: RAYVHF725US which then made this radio a “composite device”. This change in FCC ID is to cover the Part 80 portion of the radio.

No changes were made to the Part 80 portion of the radio. This model is the same as the originally approved device except for the bluetooth. Testing was performed and a Class I permissive change issued to confirm that there was no degradation in the test results.

Regards,

Mario de Aranzeta  
Engineer
