Sunnyvale, CA, 94085

To whom it may concern:

The enclosed documents constitute a formal submittal and application for a Class II Permissive change for an 802.11abg access point pursuant to the following rules:

Subpart C of Part 15 of FCC Rules (CFR 47)

The purpose of the C2PC is to add new antennas to the existing certification:

1. WS-A0-2S08360, 8dBi Omni for the 2400-2483.5MHz band
2. WS-A0-5S10360, 10dBi Omni for the 5725-5850MHz band.

These antennas are higher gain than the already authorized antennas of the same type. There are higher gain antennas, of different type, currently approved.

These antennas will not be used for the authorized NII bands.

Testing was limited to radiated spurious emissions.

A revised regulatory guide has been uploaded to update the FCC records.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

Mark Hill  
Staff Engineer
