EL2611/2614

EL2611: 1-button W/L key-fob transmitter used for panic applications. Includes tx that transmits data in a frequency of 418MHZ, modulated FSK for 1sec.

EL2614: Same as EL2614 (same tx, same data), but comprises 4 buttons for activation/deactivation of security system and other auxiliary functions.

Low battery transmission: this data is not sent in a special transmit, but waits for first data transmission and will be sent together.

For compliance with 15.231(a)(2) refer to test plot
