WMS-30 Label Artwork Rev A

The artwork below shows the label that is affixed to the WMS-30 module. The following notes apply:

1. The label is self-adhesive and made from plasticated material. It is affixed to the reverse side of the module.
2. Due to the small size, warning statements are contained in the manual.
3. The MAC address is programmed into OTP in the device at the time of manufacture. The device also has a serial number allocated for traceability purposes.
