These documents contain detailed system and equipment description and related information about the product that SkyPilot Network, Inc considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, SkyPilot Network, Inc considers that this information would be of benefit to its competitors, and that disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul A. Gordon". The signature is fluid and cursive, with a long horizontal line extending to the right from the end of the name.
