

COVER LETTER

FABIEN BONJOUR

RF Manager

CORONIS,

d'Activité Aéroport - Espace Concorde Bât. B - 120, impasse Jean-Baptiste Say

34470 Pérols - FRANCE

Office: +33 (0) 467 226 670

Fax: +33 (0) 467 226 671

Subject: Explanation for Updating the Operational Description file of a certified product

Product related :

FCC Identifier : S28-EVO

Date of Grant : 12/11/2007

Name of Grantee: Coronis System

Equipment class: Part 15 Spread Spectrum Transmitter

Note: Module which allows data collection of water

To whom it may concern,

The goal of this letter is to explain the reason we ask to replace the existing "Operational Description" of the product certified under the identifier "S28-EVO".

The original file has been completed and updated with more detailed, leading to a better understanding of the way the device perform as should do this file.

In other terms the original file was more a draft and this is why we request this change.

More over we request that Original Operational Description that was upload be superseded from the website. Indeed this file must remain as part of the confidential files.

Sincerely

Fabien Bonjour
