

Ready to fly

Power on and connect

⚠ Note: Before the aircraft is powered on, make sure the Camera shield is removed to affect the aircraft self-test.

- 1) Long press the power switch to turn on the remote control.
- 2) Short press the battery power switch once, then long press the power switch for 3~5 seconds to turn on the aircraft.
- 3) Put the aircraft in the horizontal position, wait until the aircraft status indicator lights flash from yellow light fast flashing to green light slow flashing to indicate that the connection code is successful.

Activating the Mini SE Aircraft

✳ The MINI SE requires activation before first use. After powering on the remote controller and aircraft, according to the interface prompts to activate Mini SE using WK Fly app. An internet connection is required for activation.

Enter the flight interface

Click the WK Fly App icon → Activate Mini SE according to the interface prompts → Click "Go Fly" on the main interface to enter the flight interface.

If you are flying without a network mirror, download an offline map of the planned flight area in advance (Please download the offline map while your mobile device is connected network).
