RE: FCC ID: S57-WNMNFHSS

Dear Application Examiner:

We recently completed an upload and issued a C2PC authorization (FCC ID S57-WNMNFHSS). Our policy is to send the entire application package to the customer to do a final review of the exhibits before we upload. The customer did the review and gave us the ok, but unfortunately after looking at the exhibits on the FCC website (after upload) they realized they left a confidential password in the Pro-Installation Guide (User Manual). They requested us to supercede the existing version that is on the FCC website with a version that has been edited to remove the confidential information.

Best regards,

Northwest EMC, Inc.
