RE: Evermore Systems

FCC ID: SYBSSC1 or SBYSSC1

After a review of the submitted information, I have a few comments on the above referenced Application.

Administrative Issues:

- 1) The Letter of Authorization, Letter of Confidentiality, Statement of Modifications, Schematic, and Users Manual exhibits do not contain any documents. Was this intentional? These exhibits could not be reviewed since they were not provided. Note that to support the confidentiality request, a letter must be provided. TX schematics, users manual, and statement of modifications must also be provided.
- 2) The Grantee code given on the 731 form appears incorrect and does not match the information given on the FCC site. Please confirm the correct grantee code and correct. It appears the grantee code may be SBY.
- 3) The 731 states a TX frequency of 2431, while the operational description states 2432. Which is correct? Please correct all affected exhibits for the correct frequency.
- 4) Please provide better internal or external photographs as necessary in order to show the position and type of antenna used.
- 5) Trying to open the test report asks about running a macro pulling information from another application/file. Without being assured the file is complete, the test report can not be reviewed.
- 6) FYI.....Although not required, it is recommended that all files provided are in PDF format. This allows reviewing to occur much faster and usually files sizes are also smaller allowing faster uploads and quicker review times.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
