Attn: Reviewing Engineer,  
Federal Communications Commission,  
7435 Oakland Mills Road,  
Columbia,  
MD 21046

**RE: FCC ID SEAWATCH21**

To Whom It May Concern:

The attached application is for a portable watch-style device with integral antennas that is both a 6 to 8 GHz UWB device operating under Part 15.517 and a Part 15.249 device operating in the band 2400 to 2483.5 MHz.

Previously similar devices from this applicant were certified as Part 15.517/15.249 composite devices (e.g. FCC ID: SEATAG22), and we are again following the FCC's guidance relating to previous certifications, which directed us to submit test reports for both the 15.517 and 15.249 transmitters under a single FCC ID.

Should you have any questions or require any further information with regards to this, please feel free to contact me.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dr. Andy Ward", written in a cursive style.

Dr Andy Ward  
Chief Technology Officer
