5. Multi-Function Button
(On/Off Button)
6. Speaker/Ear Pad
7. USB Charge Port
8. Adjustable Arm
9. Windproof Boom Mic

5 | BATTERY INFORMATION

- 1).Your device is powered by a chargeable battery. The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times.
- 2).Unplug the charger from the electrical plug and the device when not in use. Do not leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime. If left unused, a fully charged battery will lose its charge over time. If the headset will go unused for a long time, please charge fully and turn off the headset.
- 3).To prevent over discharge endangering the battery, it is recommended that you charge the headset fully every 3 months.

6 | CHARGING THE BATTERY

This headset has an internal, non-removable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device. Please refer to the following steps to charge the battery:

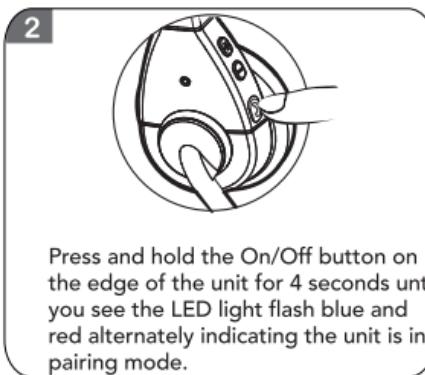

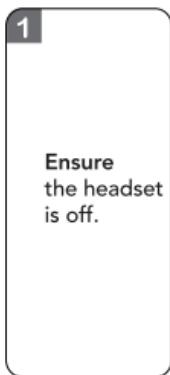

- 1).Connect the charger to the correct outlet.
- 2).When the charger is connected to the headset, the red indicator light will turn on indicating it is charging. Charging the battery fully may take up to 2 hours.
- 3).When the battery is fully charged, the red indicator light will turn Blue. Disconnect the charger from the headset and the wall outlet. The headset is ready to use.

NOTE:

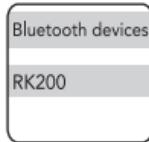

- The fully charged battery has power for up to 13 hours of talk time or up to 300 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth wireless technology enabled devices, usage settings, usage styles, and environments.
- When the battery power is low, the headset will remind you by beeping every 20 seconds, and the red indicator light starts to flash.
- For first time use, please charge the headset fully.

7 | PAIR TO YOUR BLUETOOTH PHONE

Before you use your headset the first time, you must pair the unit with a Bluetooth enabled mobile phone or device. Please refer to the following steps to set up the pairing:

4

Your phone will find the headset and show the device name on the screen; select the device name to confirm pairing.

5

Enter **PIN code as 0000** (4 zeros) and confirm to complete pairing.

NOTE:

- If the pairing is successful, the headset will connect to your phone automatically. You may need to confirm the connection.
- While the headset is paired with the phone and connected, the indicator light will flash blue 1 time every 3 seconds. If the pairing operation failed or did not connect to your phone, the blue indicator light will flash 1 time every 5 seconds.
- Once you pair the headset with one device or more, the headset will automatically connect to the phone you last connected whenever you turn the headset on, as long as your phone is within range and has its *Bluetooth* function enabled.

8 | TURNING HEADSET ON/OFF

Turning on your headset

While the headset is turned off, press and hold On/Off for 3 seconds until you hear a tone from low to high. The headset is now on. The Blue indicator light will be solid for 2 seconds.

Connecting to a *Bluetooth* phone

If your headset has completed the pairing operation successfully, when the headset is turned on, it will connect to the phone last connected automatically. Please ensure your phone's *Bluetooth* function is active.

Turning off the headset

At any working state after the headset is powered on, press and hold On/Off for 5 seconds. You will hear a tone from high to low, and the Red indicator light will be solid for 4 seconds. The headset has now powered off.

NOTE:

To conserve power, if the headset is not connected to a device for approximately 10 minutes, the headset will turn off automatically.

9 | WEARING YOUR HEADSET

According to your preference, you can wear the headset on your left or right ear. The adjustable headband design allows for a comfortable fit.

10 | MAKING A CALL

Using phone's keypad

In standby mode, dial the number on your phone's keypad to make a call.

Using Voice-Dialing

In the standby mode, press and release the On/Off Multi-Function Button quickly; you will hear a short tone from the headset, and the phone will remind you to say the voice tag which you have already recorded to your contact. If the voice tag is identified by the phone, the related number will be dialed. Please ensure that your

mobile phone supports this voice dialing function, and voice tags have been recorded on your mobile phone prior to attempting this. Refer to your mobile phone's user guide or contact your service provider.

Last number re-dialing

Press and hold the Volume (-) button for 3 seconds. You will hear 2 short tones. The last number you dialed will be re-dialed.

11 | ANSWERING A CALL

When you receive an incoming call, press the On/Off button to answer the incoming call; you can also answer the call on your phone's keypad.

12 | REJECT AN INCOMING CALL

When you receive an incoming call, press and hold the On/Off button for 3 seconds to reject the incoming call.

13 | TRANSFERRING A CALL

While a call is in progress on your mobile phone, press and hold Volume (+) for 3 seconds. The call will be transferred from your mobile phone to your headset. Repeating the operation can transfer the call from your headset to your mobile phone.

14 | ENDING A CALL

While on a call, press the On/Off button to end the call; you can also end the call on your mobile phone keypad.

15 | CALL-WAITING (THREE-WAY CALLING)

Before using the Call-Waiting function on your headset, please ensure that your phone supports this hands-free profile and you have access to the service by your wireless provider.

- If there is another incoming call while a call is in progress on your mobile phone, press On/Off quickly. This will accept the waiting call and end the current call.
- If there is an incoming call while a call is in progress on your mobile phone, press and hold On/Off for 3 seconds to accept the incoming call and place the current call on hold.
- While a call is on hold and you are engaged in an additional call, press On/Off quickly to end the current call and resume the call holding.
- While a call is on hold and you are engaged in an additional call, press and hold On/Off for 3 seconds to shift the current call to hold and connect you with the previously held call.
- While you are engaged in one call with another call on hold, press the Volume (+) button and Volume (-) button quickly at the same time to add the held call to the current conversation, making a three-way call.
- While you are engaged in a three-way call, press On/Off twice to end all calls.

16 | VOLUME CONTROL

While on a call, you can adjust the volume by pressing the Volume (+) or Volume (-) button, or you can adjust the volume on your mobile phone keypad.

17 | MUTE

While a call is in progress, press and hold Volume (-) for 3 seconds; you will hear a tone from low to high. The headset's Mic is now muted. You will hear a remindful tone every 20 seconds, notifying you that your Mic is still muted and a call is still in progress. Repeat the operation and you will hear the tone from high to low. The mute function is now cancelled.

18 | SAFETY AND GENERAL INFORMATION

- 1).Please read this User Manual carefully and follow all instructions.
- 2).To avoid any damage or malfunction of the device, do not drop the device from high places.
- 3).Keep device away from humidity, water and any other liquid. If the device is exposed to water, moisture or other liquids, do not operate it to avoid any electrical shock, explosion and damage to the device or yourself.
- 4).Do not place or keep this device near any heat sources, such as direct sunlight, radiators, stoves or other apparatus which produces heat. This may cause an explosion, degrade the performance and/or reduce battery life.
- 5).Do not modify, repair or disassemble device (especially the battery). Doing this will void the warranty.
- 6).Do not place heavy objects on the device.
- 7).Use only the supplied and approved chargers.

- 8).Please contact RoadKing for replacement or support of this product.
- 9).Unplug this device when unused for long periods of time or during lightning storms.

CAUTION: ELECTRIC SHOCK HAZARD

The battery used in this device may present a risk of fire or chemical burn if mishandled.

19 | FCC & IC STATEMENT

Operation is subject to the following two conditions:

- 1).This device may not cause harmful interference.
- 2).This device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for ANY interference, for example RADIO or TV interference, caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

20 | WARRANTY

This Limited Warranty from RoadKing, a DAS Company, applies to all electronic products and devices manufactured by RoadKing and sold under the brand name RoadKing.

Terms of the Warranty:

RoadKing warrants that the product you have purchased from a DAS authorized retailer is free from defects in materials and workmanship under normal use during the warranty period. The warranty period begins on the day of retail sale. This warranty extends only to the original purchaser. It is not transferable to anyone who subsequently receives the product. It excludes all expendable parts (fuses, filters, bulbs, etc). During the warranty period RoadKing will repair your defective product, replace it with an identical item, or at our option exchange it for an equivalent product of value and performance. This Limited Warranty does not extend to any product that has been damaged or rendered defective as a result of: an accident, misuse or abuse, as a result of an act of God, by operation outside the usage parameters stated in this manual, by modification of the product, attempted repair, or as a result of war or terrorist attack. Other limitations of this warranty exclude: payment for your lost time, loss of use of your product, or property damage caused by the product or its failure to work, or any other incidental or consequential damages including personal injury. Except as expressly set forth in this warranty statement, RoadKing makes no other warranties expressed or implied.

Defective products must be returned to the dealer within 30 days. After 30 days, the product may be returned to RoadKing.

When returning products to RoadKing: Shipping to RoadKing shall be prepaid; your replacement will be mailed back to you at no additional charge. Carefully pack product and all included accessories into a suitable box, along with original dated register receipt or invoice, a letter stating the defect, daytime phone number, and a physical return address. (UPS will not deliver to a PO Box.)

- Any package with a PO Box address will not be processed, and will be held until further notification from you.
- Make sure you can track your shipment to us. RoadKing will not be responsible for lost packages.
- RoadKing will not be responsible for damage incurred during shipment to us.
- Failure to provide a dated proof of purchase will invalidate warranty.

Ship to: RoadKing Returns, 1875 Zeager Road, Elizabethtown PA 17022
