Re: FCC ID: SK9ACT2

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Inc., for evaluation of their model ACT2 for a C2PC certification under FCC Part 15.247.

The C2PC is to add new antenna types/host combinations to the 900MHz DSS radio only. The DTS 2400MHz radios are not affected.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
