Re: FCC ID: SK9SNIC1

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Inc., for evaluation of their model SNIC1 for single modular certification under FCC Part 15.247.

The SNIC1 (Smart Network Interface Card) module is built on Itron's IPv6 OpenWay platform, and includes the ACT (Adaptive Communications Technology). The module utilizes 900 MHz radio frequency (RF), power line carrier (carrier current system) and 2.4 GHz Wi-Fi operation bands.

Radiated inter-modulation testing was performed for all combinations of simultaneous transmission and found to comply.

The SNIC1 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first name "R." and last name "Wismer" clearly distinguishable.
