

## A 3D perspective view of a white, cube-shaped device. The front face is covered in a dense, repeating pattern of small, stylized 'X' or cross-like shapes. A vertical white strip runs down the right side of the front face, featuring the 'NIA' logo in a stylized, vertical font. The top face of the cube has three small, dark, circular components arranged in a triangular pattern. The bottom face is a solid white surface.

## 01. Introduction

Thank you for purchasing the AVI1Q SmartBox Wireless Bluetooth Speaker. This product is designed to provide you with high quality wireless audio streamed from your smartphone, tablet or any other Bluetooth device.

This user guide describes the operation and specifications of the Smartbox. Please keep the user guide safe and secure for future reference.

1. Play music wirelessly through a Bluetooth connection.
2. Built-in microphone allows you to use your SmartBox for handsfree conferencing.
3. Multiple connections: AUX or Bluetooth connection supported.

## 02. What's inside

1. AViiQ SmartBox Wireless Bluetooth Speaker
2. Micro USB Cable
3. 3.5mm AUX cable
4. User Guide

## Getting Started – Charging your SmartBox

1. Upon purchase, the battery is not fully charged; to maximize battery life, you should charge your SmartBox for 4 hours before first use.
2. Connect the SmartBox to a PC or any USB charging device via the included USB cable.
3. A red LED Indicator will confirm that your SmartBox is charging, and will turn blue when charging is complete.
4. It takes approximately 2 hours to fully recharge an exhausted battery. If you have not used the SmartBox for an extended period, charge the battery for 4 hours before you use it.

## Connecting Via Bluetooth

1. Turn on your SmartBox by switching the ON/OFF button to ON.
2. Turn on the Bluetooth capability on your device and connect to "MC-Mo"  
(If a passkey is requested, enter "oooo".)
3. Allows 5-20 seconds to pair up.
4. A sound "Matching is OK" can be heard when the Bluetooth device is successfully paired with the SmartBox.
5. All audio will now be played through your SmartBox.

### Connecting Via AUX

1. Turn on your SmartBox by switching the ON/OFF button to ON.
2. Connect the 3.5mm AUX cable to the line-out / headphone jacket of your SmartBox and the device you wish to connect with.
3. All audio will now be played through your SmartBox.

## Handsfree Conferencing

1. Turn on your SmartBox by switching the ON/OFF button to ON.
2. Activate Bluetooth on your smartphone and connect to "MC-Mo" (if a passkey is requested, enter '0000'.)
3. Allows 5-20 seconds to pair up.
4. A sound "Matching is OK" can be heard when your smartphone is successfully paired with the SmartBox.
5. Press the Pause/Answer Phone button to answer a phone call, or just call someone as you normally would.
6. When your conversation has ended, press the SmartBox's Pause/Answer Phone button to end the phone call.

## Specifications
